Inventing Authenticity Carrie Helms Tippen, 2018-08-12 In *Inventing Authenticity* Carrie Helms Tippen examines the rhetorical power of storytelling in cookbooks to fortify notions of southernness Tippen brings to the table her ongoing hunt for recipe cards and evaluates a wealth of cookbooks with titles like *Y all Come Over* and *Bless Your Heart* and famous cookbooks such as Sean Brock's *Heritage* and Edward Lee's *Smoke and Pickles* She examines her own southern history grounding it all in a thorough understanding of the relevant literature The result is a deft and entertaining dive into the territory of southern cuisine black eyed peas and cornbread fried chicken and fried okra pound cake and peach cobbler and a look at and beyond southern food tropes that reveals much about tradition identity and the yearning for authenticity Tippen discusses the act of cooking as a way to perform and therefore reinforce the identity associated with a recipe and the complexities inherent in attempts to portray the foodways of a region marked by a sometimes distasteful history *Inventing Authenticity* meets this challenge head on delving into problems of cultural appropriation and representations of race thorny questions about authorship and more The commonplace but deceptively complex southern cookbook can sustain our sense of where we come from and who we are or who we think we are

Papyri Osloenses Samson Eitrem, Leiv Amundsen, 1925 Papyri Osloenses ...: Magical papyri Samson Eitrem, Leiv Amundsen, 1925 **Eating and Ethics in Shakespeare's England** David B. Goldstein, 2013-11-07. David B. Goldstein argues for a new understanding of Renaissance England from the perspective of communal eating. Rather than focus on traditional models of interiority, choice, and consumption, Goldstein demonstrates that eating offered a central paradigm for the ethics of community formation. The book examines how sharing food helps build, demarcate, and destroy relationships between eater and eaten, between self and other, and among different groups. Tracing these eating relations from 1547 to 1680 through Shakespeare, Milton, religious writers, and recipe book authors, Goldstein shows that to think about eating was to engage in complex reflections about the body's role in society. In the process, he radically rethinks the communal importance of the Protestant Eucharist. Combining historicist literary analysis with insights

from social science and philosophy the book's arguments reverberate well beyond the Renaissance Ultimately *Eating and Ethics in Shakespeare's England* forces us to rethink our own relationship to food **A Philosophy of Recipes** Andrea Borghini, Patrik Engisch, 2021-12-16 This volume addresses the nature and identity of recipes from a cross disciplinary perspective Contributors study the values and norms guiding the naming production and consumption of recipes scrutinizing their relationship to territory makers eaters and places of production Along the road they uncover the multifaceted conceptual and value laden questions that a study of recipes raises regarding cultural appropriation and the interplay between aesthetics and ethics in recipe making With contributors specializing in philosophy law anthropology sociology history and other disciplines this volume will be of vital importance for those looking to understand the complex nature of food and the way recipes have shaped culinary cultures throughout history *Go Cookbook* Sau Sheong Chang, 2023-09-13 Go is an increasingly popular language for programming everything from web applications to distributed network services This practical guide provides recipes to help you unravel common problems and perform useful tasks when working with Go Each recipe includes self contained code solutions that you can freely use along with a discussion of how and why they work Programmers new to Go can quickly ramp up their knowledge while accomplishing useful tasks and experienced Go developers can save time by cutting and pasting proven code directly into their applications Recipes include Creating a module Calling code from another module Returning and handling an error Converting strings to numbers or converting numbers to strings Modifying multiple characters in a string Creating substrings from a string Capturing string input And so much more *Manuscript Recipe Books as Archaeological Objects* Madeline Shanahan, 2014-11-18 During the mid to late seventeenth century women in Irish houses from elite backgrounds started to collect recipes which they recorded in domestic manuscripts While these manuscripts were made elsewhere at an earlier date they were an almost entirely new arrival to Ireland in this period and their sudden proliferation said much about changes taking place in society at large This book is a detailed study of such manuscripts from the perspective of historical archaeology which will argue that they are artifacts which clearly demonstrate that a profound series of changes was taking place The written word penetrated people's daily lives and homes to a degree that it had not in previous periods and it had a profound influence on how they related to their world objects and each other While this book will address how we can use them as sources for the study of food history and material culture it is ultimately concerned with the meanings of manuscript recipe books and specifically what they say about the individuals and society that made them The proliferation of these manuscripts signaled a profound change not just in cuisine but also in the way people thought about and related to food as a form of material culture Ultimately this book will argue that these manuscripts are not simply excellent records which can tell us about material culture within the early modern house but that they are a profoundly important type of artifact in their own right Undertaking research that situates textual objects such as recipe books at the very core of historical archaeology is critical to understanding some of the most
