The Orchid Manual Thomas Appleby,2015-06-25 Excerpt from The Orchid Manual For the Cultivation of Stove Greenhouse and Hardy Orchids With a Calendar of Monthly Operations and Classified Lists of Species He first wrote a small book on the subject printed it and bound the first edition with his own hands and generously gave the first edition away to his friends and all the cultivators of Orchids that he knew of That small work was so well thought of that he was induced to write a considerably enlarged edition much improved both in form and matter This was published in 1845 in London by Mr J Ridgway and by Messrs Hodge and Smith of Dublin and is now I believe out of print Another somewhat larger work on the culture of these lovely plants is from the pen of Mr B Williams formerly gardener to J Warner Esq of Broxbourne Herts I may venture to mention also that I wrote a few essays on their culture in the earlier volumes of The Cottage Gardener Notwithstanding all these publications it seems that a few concise instructions in a simpler form and in less compass are needed and will be useful to young gardeners amateurs and others that may be desirous of growing Orchids and wish to know the best way to set about their culture On each point of culture I shall endeavour to give plain instructions in such language that the veriest tyro can understand and if he will or can put them in practice as far as his means extend I have no doubt by careful attention he will succeed in growing his plants in a satisfactory manner The Orchid House Let not the amateur be alarmed about the expense of a house suitable for Orchids If his collection at first is small any kind or form of house if sufficiently heated will with judicious care grow them on till a larger house is needed but where expense is no object then a proper house should be put up for them Experience has proved that a span roofed house is the best form Now as these plants mostly grow on trees in their native country there they
