### Legalization of Abortion

There are many debates about abortion in today's society. Unwanted pregnancies can be very stressful for a women. There are about 12 million abortions a year and 3,322 a day. There are two different types of abortions, a medical abortion and a surgical abortion. The variety of opinions are endless to whether or not abortion is inhumane. Approximately 51 percent of the United States population believes that abortion should be legal. The other 43 percent of the United States population believes that abortion should be illegal. Women should have the right to abort a baby today because of the chances of being raped, having an unstable home, and putting their life at risk.

Many states forced restrictions on abortion right after the Roe v Wade act. The Roe v Wade act was issued on January 22, 1973. Norma McCorvey lived in Texas in the late 1960's. She was pregnant with her third child and did not want to continue with her pregnancy. She had put her two previous children up for adoption. During the time of her pregnancy abortion was only legal if the woman's life was at risk. Norma ended up giving birth and putting the child up for adoption. Finally the court declared that a woman's right to an abortion was her privacy rights. Then some other states still believed that abortion was not the right choice and would not legalize it.

It is known that two out of every three rape victims do not report the assault, in fear of being shamed or punished. Women hesitate to report because of being victim blamed which further hurts them, making them believe it is their fault. Some laws are not what is best for the women carrying the unborn child. For example, in Iowa, a law was passed that stated a woman must report the assault in 45 days or the law could not do anything about the assault. Therefore, if a woman happened to get pregnant from being raped there would be nothing that could be done and abortion cannot be established. This law forces women to keep the child whether they want to or not if they do not react during a certain period of time.

When discussing abortion you have to look at different views including rape. When a woman is raped and becomes pregnant from the assault they may not want to live with facing their demons everyday of their life. Women should be given the option to terminate their pregnancies if they have been raped. If they are forced to keep the child by law, the mothers can become depressed, have mental issues, have eating disorders or other problems by keeping the baby they did not want or could not take care of. Allowing women to have the choice to terminate their pregnancy or continuing it defends all people, giving them the choice to do what they need or want to do with their body or situation they are in. There are very minimal options for a rape victim to prevent unwanted pregnancies as well. The most common way to prevent the pregnancy is by taking a ECP, which is an emergency contraceptive pill.
