**Islamic Accounting And Finance: A Handbook** Khaled

Hussainey, Hidayat Al Lawati, 2023-03-23 Islamic finance is one of the fastest growing sectors in international banking and finance. Owing to the increasing availability and ease of access to Islamic services, Islamic finance has become increasingly important not only in Muslim countries but around the world, making it a global industry. Under the Gulf Cooperation Council (GCC) as well as in some regions such as the Middle East and North Africa, a dual financial system is implemented where Sharia-compliant products are marketed alongside conventional financial systems. In this thoroughly researched collection of chapters, researchers from around the world examine the role of Islamic finance in the economies and prospects of different companies. They discuss Islamic finance literature from both theoretical and empirical perspectives. The theoretical section of the book consists of conceptual chapters that enable readers to critically evaluate and expand their understanding of accounting and finance. The chapters in the empirical section of this handbook discuss and interpret empirical evidence to provide clear implications for practice, research, and society. This section bridges the gap between theory and practice and offers suggestions for future research. *Islamic Accounting and Finance* is geared towards scholars and students but it is also of use to banking and finance practitioners. Public Debt Management Charan Singh, 2016-11-02 This book examines the objectives of public debt management and the re-emerging issue of separating monetary policy formulation from fiscal and debt management. The recent Great Recession has resulted in a rethink of the objectives and working of macroeconomics, and in many countries, including India, has led to the scope of fiscal operations being expanded and debt-to-GDP ratios increasing significantly. Consequently, debt management has encountered considerable difficulties, and the need for coordination between monetary and debt management has assumed greater significance. The book discusses the important issue of the independence of central banks and the need for coordination between debt managers, monetary authorities, and finance ministries if debt operations are separated from monetary management. **Proceedings of the ASEAN Entrepreneurship Conference 2014** Noor Zahirah Mohd Sidek, Siti Meriam Ali, Mahazir Ismail, 2015-12-17 The very latest theories and research on the development of entrepreneurship are to be found in this book.
