Tienken,Carol A. Mullen,2015-11-06 Education Policy Perils provides educators and those interested in the future of public education with research based and practical analyses of some of the foremost issues facing public schools today The collection written by experienced scholar practitioners offers insights that include nuanced descriptions of various challenges facing educators and recommendations for overcoming them with an eye toward more successful policy and better implementation The authors apply their expertise to a range of issues from international testing to policy challenges related to curriculum on the state and national levels This volume positions ongoing debates within the wider context of an education landscape struggling to displace junk science ideology with empirical research The scope and sequence combined with the expertise of the contributors make this volume a vital resource for educators at all levels during a pivotal time of major changes in education policy *The Politics of Education in Developing Countries* Sam Hickey,Naomi Hossain,2019-02-21 Why have many developing countries that have succeeded in expanding access to education made such limited progress on improving learning outcomes There is a growing recognition that the learning crisis constitutes a significant dimension of global inequality and also that educational outcomes in developing countries are shaped by political as well as socio economic and other factors The Politics of Education in Developing Countries focuses on how politics shapes the capacity and commitment of elites to tackle the learning crisis in six developing countries Bangladesh Cambodia Ghana Rwanda South Africa and Uganda The problem of education quality is serious across the Global South The Politics of Education in Developing Countries From Schooling to Learning deploys a new conceptual framework the domains of power approach to show how the type of political settlement shapes the level of elite

commitment and state capacity to improving learning outcomes The domain of education is prone to being highly politicized as it offers an important source of both rents and legitimacy to political elites and can be central to paradigmatic elite ideas around nation building and modernity Of particular importance is the relative strength of coalitions pushing for access as against those focused on issues of higher quality education This book concludes with a discussion of entry points and strategies for thinking and working politically in relation to education quality reforms and critical commentaries
