Paired Maths Handbook Judi Bamford,Keith J. Topping,2013-11-12 First Published in 1998 This book is one of a family of three related books consisting of two resource Handbooks for everyday use supported by a more detailed background text for deeper reading and reference The Paired Maths Handbook gives a brief introduction to the rationale materials organisation and evaluation of the Paired Maths method for parental involvement and peer tutoring in mathematics for children aged 4 to 14 This is followed by 12 different practical resources to copy to help with the organisation of the method The main part of the book consists of two dimensional mathematical games to copy complete with instructions and needing minimal other materials These games are particularly suitable for children aged 9 to 12 especially when involved in cooperative learning or peer tutoring in schools or other study centres **Oxford University Gazette** University of Oxford,1911

Access to Scientific Research David J. Brown,2015-11-13 The debate about access to scientific research raises questions about the current effectiveness of scholarly communication processes This book explores from an independent point of view the current state of the STM publishing market new publishing technologies and business models as well as the information habit of researchers the politics of research funders and the demand for scientific research as a public good The book also investigates the democratisation of science including how the information needs of knowledge workers outside academia can be embraced in future *Soviet SCI_BERIA* Ksenia Tatarchenko,2024-10-03 At first glance the Novosibirsk Scientific Center or Akademgorodok appears as an outlier in academic excellence This science city is

renowned for a preeminent university dozens of research institutes and a thriving technopark At home it is an emblem of Russian innovation abroad it is often portrayed as a potential threat a breeding ground of cyber soldiers Though Siberia has been the main source of post 1991 Russian carbon revenues its soviet history and cold war legacy of internationalism demonstrates that territorial and scientific dimensions interlocked the moment the Siberian Branch of the Soviet Academy of Sciences was created in 1957 Drawing on a wide range of previously unexplored archives Soviet SCI_BERIA focuses on how the post Stalinist Siberia was redefined and represented through the ideal of rational development the late socialist innovation practices and the relationship between experts and the state It offers a fresh insight into the transition from Soviet to post Soviet Akademgorodok In doing so Tatarchenko not only fosters a conversation between history area studies and science studies but also sheds new light on Soviet modernity and the limits of its transformative projects
