

## User's Guide for the Motorola URC941

Remote Control  
for Motorola®  
Satellite Receivers

Use this guide in conjunction with  
your satellite receiver manual

### 1

### PROGRAMMING

To enable the remote control to operate your receiver, your TV, and your VCR, it has four main modes of operation: SAT or Cable, TV, VCR and AUX. This means that when you press the clear mode keys labeled SAT, TV, VCR or AUX keys on the remote control, you enable it to control each of these devices, one at a time.

Naturally, some of the remote control keys have more than one function, depending upon which mode you are using at the time. Keep this in mind as you read the descriptions for each remote control key. Also keep in mind that some functions are available only within SAT mode. Among these special functions is access to the receiver menus through the **OPTIONS** key, use of the Interactive Program Guide (IPG) through the **GUIDE** key, and the ability to select a satellite by using the blue **SAT** key. In addition, you can assume that if you see a key on the remote that you have never seen on a TV or VCR remote control, it is only useful for receiver functions and can only operate when the remote is in SAT mode.
