Justice and Peace Milburn J. Thompson, 2015-03-31 **Orthodoxy on the Line** Aram G. Sarkisian, 2025-07-22 Working class immigration religion and labor history in the United States At the turn of the twentieth century thousands of immigrants from the borderlands of the Russian and Austro Hungarian Empires built a transnational church in North America The community that church leaders called American Orthodox Rus was created by and for working people and transformed believers identities as Eastern European migrants as Orthodox Christians and as American workers Given how strongly the Russian Orthodox Christian community was tied to working class industrial life this book makes the case that we cannot understand the scope of working class and immigrant religion in the United States without understanding American Orthodox Rus The work Russian Orthodox immigrants did in the Progressive Era United States occurred in factories foundries and mines they lived mainly in industrial cities and mining towns and they almost immediately got caught up in the most pivotal and sometimes violent political and social crises of their times both nationally and internationally To address their needs in these contexts the Russian Orthodox Church expanded its missionary efforts in North America forming a network of social and material aid for working class believers This book traces the rapid growth of this transnational religious world then explores its unexpected collapse under the weight of the First World War a global pandemic and the transnational reach of revolutionary political change in Russia A story of challenge and resilience *Orthodoxy on the Line* complicates dominant paradigms in the study of labor and North American Religions *Collateral Damage* Nicholas Khoo, 2011 Although the Chinese and the Vietnamese were Cold War allies in wars against the French and the Americans their alliance collapsed and they ultimately fought a war against each other in 1979 More than thirty years later the fundamental cause of the alliance s termination remains contested among historians international relations theorists and Asian studies specialists Nicholas Khoo brings fresh perspective to this debate Using Chinese language materials released since the end of the Cold War Khoo revises existing explanations for the termination of China s alliance with Vietnam arguing that Vietnamese cooperation with China s Cold War adversary the Soviet Union was the necessary and sufficient cause for the alliance s termination He finds alternative explanations to be less persuasive These emphasize nonmaterial causes such as ideology and culture or reference issues within the Sino Vietnamese relationship such as land and border disputes Vietnam s treatment of its ethnic Chinese minority and Vietnam s attempt to establish a sphere of influence over Cambodia and Laos Khoo also adds to the debate over the relevance of realist theory in interpreting China s international behavior during both the Cold War and post Cold War eras While others see China as a social state driven by nonmaterial processes Khoo makes the case for viewing China as a quintessential neorealist state From this perspective the focus of neorealist theory on security threats from materially stronger powers explains China s foreign policy not only toward the Soviet Union but also in relation to its Vietnamese allies **Battlefield Bangkok: The Royal Thai Army 2000-2014** Dean Wilson, 2014
