Ford Falcon - Commemorative Edition Luke West, 2022-05-09 Ford Falcon Commemorative Edition celebrates the much loved car's six decade rule of Aussie roads and racetracks. With the chequered flag flying on the Blue Oval favourite this book examines the first Falcons to take flight in the early 1960s through to the final FG X. Special emphasis is placed on the glorious decade 1969-78 and the magnificent high performance machines from the Falcon XW GT HO to the XA XB and the Cobra. These are cars that still command instant respect and ooze all the excitement, emotion, colour, freedom and raw power of their time. Ford Falcon captures the stories from the men who designed, developed, built and raced these bred for Bathurst beasts. It features stunning photography of Falcon's triumphs, milestones and majesty. After some 56 years and 3.8 million cars, what better way to say goodbye to Aussie motoring royalty? *The Mobilgas Economy Run* Dave Hermanson, 2014-02-28 The Mobilgas Economy Runs were annual competitions in which new American production automobiles vied not for speed but for fuel economy even as the industry was turning out bigger, more powerful cars year by year. This first complete history of the runs including the predecessor Gilmore Economy Runs follows each year's competitors day by day, covers some aspects not reported at the time and features a wealth of photographs. It includes coverage of the related Mobil Mileage Rally held for imported cars from 1958 through 1961. Complete results for all of the competitions are provided in an appendix. *The Driving Machine* Witold Rybczynski, 2024-10-08 The renowned design writer on the extraordinary history of car design. In this lively and entertaining work Witold Rybczynski hailed as one of the best writers on design working today by Publishers Weekly tells the story of the most distinctive cars in history and the artists, engineers, dreamers and gearheads who created them. Delving into more than 170 years of ingenuity in design, technology and engineering he takes us from Carl Benz's three wheel motorcar in 1855 to the present day shift to electric cars. Along the way he looks at the emergence of mass production with Henry Ford's Model T, the Golden Age of American car design and the rise of car culture postwar. European subcompacts typified by the Mini Cooper and the long tradition of the streamlined and elegant sports car. Rybczynski explores how cars have been reflections of national character: the charming Italian Fiat Cinquecento, icons of a subculture, the VW bus for American hippies and even emblems of an era, the practical Chrysler minivan. He explains key developments in automotive technology including the electric starter, rack and pinion steering and disc brakes, bringing to light how the modern automobile is the result of more than a century of trial and error. And he weaves in charming accounts of the many cars he's owned and driven, starting with his first, the iconic Volkswagen Beetle. *The Driving Machine* is a breezy and fascinating history of design illustrated with the author's delightful drawings. ***Decline and Fall of the Auto Man Empire*** Carl Meredith, 2009-12-11 A Gearhead Boomer's Auto Biography and Lamentations on General Motors. ***Standard Catalog of Ford, 1903-2002*** John Gunnell, 2011-09-27 The Standard Catalog of Ford delivers all the details you need to enjoy your hobby and love your Ford.
