Achieving Nelson Mandela University? Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa s higher education sector is rooted in the country s divided past A significant State driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities But just over two decades later for a variety of reasons the higher education sector in South Africa appears beset with numerous challenges Nelson Mandela University is one of the public universities that emerged from the restructuring process The university is in an ongoing state of evolution of becoming It developed out of the amalgamation of the University of Port Elizabeth Port Elizabeth Technikon and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005 In 2017 it was renamed Nelson Mandela University after the world renowned statesman rather than the metropolitan area in which the university is primarily located The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society striving to be the academic expression of the values and ethos of its iconic namesake Endeavouring to be something greater and different from the norm imbues its strategy public statements and practices The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar A cross section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution While Nelson Mandela University has performed the usual work expected of any university it has also sought to turn the university outwards to achieve a higher purpose framing itself as a values based university on a journey to become something else In *Achieving Nelson Mandela University* the university attempts to give an account of itself The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go Language Contact. Volume 2 Jeroen

Darquennes, Joseph C. Salmons, Wim Vandenbussche, 2025-04-21 Targeting a full range of students and scholars this volume provides a total of 50 chapters illustrating the linguistic dynamics and the dynamics of inter individual and societal language contact as well as the dynamics of multidisciplinary language contact studies Fueled by a wealth of data from a rich variety of contact situations its geographically balanced case studies are governed by the triangulation between a focus on language structure and change a sincere drive of sociopolitical and academic agency and the confrontation with an everyday reality that can be unkind to and ignorant of those two factors The volume clearly demonstrates the social relevance of our trade in a time burdened with ecolinguistic challenges

Anchored in Place Bank, Leslie, Cloete, Nico, 2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and affordability historical legacies such as apartheid and colonialism and the

shape and structure of the higher education system What has not received sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges

Food Security and Nutrition Callistus Bvenura, Learnmore Kambizi, 2024-12-24 Food Security and Nutrition Utilizing Undervalued Food Plants explores the potential of underutilized and indigenous food plants to enhance food and nutrition security amid global challenges such as climate change water scarcity and population growth It emphasizes the importance of dietary diversification to reduce dependency on major staple crops highlighting the nutritional and health benefits of lesser known crops such as fonio pigeonpea finger millet and a wide array of wild vegetables and mushrooms The book reviews innovative farming techniques like the organic medium enclosed trough system and hydroponics which improve crop yield and nutrient content while conserving resources Additionally it addresses the commercialization potential of indigenous fruits and wild herbal teas emphasizing their market value and health benefits The book also discusses the reduction of goitrogenic compounds in certain crops to mitigate health risks By examining the unique nutritional profiles and local adaptability of these crops the book advocates for their broader use to build a more resilient and sustainable food system Through a combination of scientific research practical farming methods and market strategies the book aims to promote food diversity improve health outcomes and support sustainable agricultural practices

Key Features Highlights the critical role of dietary diversification in reducing dependency on major staple crops advocating for the inclusion of lesser known nutrient rich plants to improve overall health and nutrition Introduces cutting

edge farming methods such as the organic medium enclosed trough system and hydroponics Explores the market value and health benefits of indigenous fruits and wild herbal teas offering strategies for their commercialization to boost local economies and food security Addresses the reduction of harmful compounds and provides practical solutions to mitigate associated health risks and enhance the safety of food consumption

Transforming Higher Education in Asia and Africa Fred M. Hayward, 2020-03-01 Analyzes twelve strategic planning efforts in higher education in eight countries in Asia and Africa Drawing on over fifty years of on the ground experience Fred M Hayward s Transforming Higher Education in Asia and Africa analyzes change processes in higher education in eight Asian and African countries The twelve cases range from the push to upgrade and transform higher education in Afghanistan in the midst of a war to the successful struggle against apartheid in South African institutions as well as thwarted efforts in Sierra Leone and Madagascar Providing both practical lessons learned and hope for communities globally Hayward demonstrates that higher education change and even transformation which is more fundamental and structural can occur even in the most difficult environments Successful transformation requires well crafted strategic and budget plans with careful implementation monitoring and effective leadership at multiple levels Yet also critical are a commitment to human development a desire for freedom and belief in democracy and recognition that high quality higher education is essential to national development This book provides detailed and informative accounts of system transformation policymaking leadership and development in several developing countries These areas are largely neglected in the literature It also provides an account of the value of coordination and planning in developing effective higher education systems and institutions It is clear that the author has long experience and expertise in the topics and regions addressed Brendan Cantwell Michigan State University

Shadow Libraries Joe Karaganis, 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks From the top down Shadow Libraries explores the institutions that shape the provision of educational materials from the formal sector of universities and publishers to the broadly informal ones organized by faculty copy shops student unions and students themselves It looks at the history of policy battles over access to education in the post World War II era and at the narrower versions that have played out in relation to research and textbooks from library policies to book subsidies to more recently the several open publication models that have emerged in the higher education sector From the bottom up Shadow Libraries explores how simply students get the materials they need It maps the ubiquitous practice of photocopying and what are in many cases the more marginal ones of buying books visiting libraries and downloading from unauthorized sources It looks at the informal networks that emerge in many contexts to share materials from face to face student networks to Facebook groups and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online the shadow libraries of the title If Alexandra Elbakyan s Sci Hub is the largest of these efforts to date the more characteristic part of her story is the prologue the personal struggle to participate in global

scientific and educational communities and the recourse to a wide array of ad hoc strategies and networks when formal authorized means are lacking If Elbakyan's story has struck a chord it is in part because it brings this contradiction in the academic project into sharp relief universalist in principle and unequal in practice Shadow Libraries is a study of that tension in the digital era Contributors Balázs Bod Laura Czerniewicz Mirosław Filiciak Mariana Fossatti Jorge Gemetto Eve Gray Evelin Heidel Joe Karaganis Lawrence Liang Pedro Mizukami Jhessica Reia Alek Tarkowski **Corrupted** Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions **Handbook of Education Policy** Gerard A. Postiglione, Christopher J. Johnstone, Wesley R. Disaster Risk Reduction in Agriculture Mukhtar Ahmed,Shakeel Ahmad,2023-11-02 This book is related to disaster risk reduction in agriculture particularly under changing climate Climate change refers to significant long term changes in the global climate There is unequivocal evidence that Earth is warming at an unprecedented rate Human activity is the principal cause The planets average surface temperature has risen to about 1oC since the late 19th century and most of the warming occurred in the past 40 years The years 2016 and 2020 are tied for the warmest year on the record Similarly other evidence of rapid climate change includes warming of oceans shrinking of ice sheets retreating glaciers decreasing snow cover rising of sea level declining arctic sea ice increased frequency of extreme events ocean acidification and loss of biodiversity Hence climate change impacts both extreme weather and slow onset events have impacted several sectors of the national economies and

activities in particular agriculture and food production augmented by other challenges be it geopolitical cost of finance or supply chain related and in a time of increased food insecurity Without CO₂ fertilization effective adaptation and genetic improvement each degree Celsius increase in global mean temperature would on average reduce global yields of wheat by 6 0% rice by 3 2% maize by 7 4% and soybean by 3 1% Hence this book is useful as a study material to teach in the field of agriculture and climate change The book is useful for instructors and postgraduate as well as undergraduate students involved in the study of climate change The book also provide guidance to multiple stakeholders to design mitigation and adaptation efforts to climate change and ensure food security in the developing world
