*Ethnoveterinary Medicine* Lyndy J. McGaw, Muna Ali Abdalla, 2019-12-31 The importance of a complementary approach to animal health is highlighted in this book with core themes encompassing reviews of traditional veterinary medicine for common diseases afflicting livestock as well as local practices in different areas of the world The book includes chapters on ethnoveterinary medicine used to prevent and treat ticks and tick borne diseases infectious diseases and parasites Ethnoveterinary practices in parts of the world which have not been comprehensively reviewed before are highlighted including Estonia Belarus and the Maghreb the north western tip of Africa A fascinating account of African ethnoveterinary

medicine and traditional husbandry practices is provided by a veteran in the field with a wealth of practical experience in the area. Neglected areas of research involve the relationship of ethnoveterinary medicine with environmental, ethical, cultural and gender aspects and leading experts explore these issues. The book is intended to provide an informative compilation of current research and future prospects in ethnoveterinary medicine which hopes to inform and encourage investigations in new directions. Sustainable development requires a concerted effort to combine indigenous knowledge systems with scientific research to improve animal health. This is the case not only in rural areas where access to orthodox veterinary health care may be limited but also against the backdrop of antibiotic resistance and increased demand for alternative and complementary therapies to enhance the health of both production and companion animals. Students, academics and veterinary professionals will find this book a useful addition to knowledge on present and future aspects of ethnoveterinary research.

*Proceedings of the 23rd European Conference on e-Learning* Fernando Moriera, *Lessons To Be Learnt From The World's Great Icons' Life Experiences*. Bheki S.V. Ntshingila, 2016-11-23. The book is about the late Mr Nelson Mandela, the unrepentant crusader and freedom fighter against the obnoxious apartheid regime in South Africa who became an instant toast of the entire world, which is a reminder that in each person there is a seed of greatness expected to be discovered and to be used to make this world a better one for all who live in it instead of experiencing hatred and brutality. What makes a person succeed is not how bad she or he thinks but is high optimism, thinking big, willingness to learn from other's mistakes and life experiences. There is a lot we can learn from Madiba's life experience and I don't doubt that the world is also learning something constructive or destructive from you. If you are not constructive to others, how would you be constructive to yourself? Remember, greatness is a phenomenon that could be associated with anyone with a positive mind. Good, better, best, never let it rest till your good is better and your better is best.

*Transformations of Higher Education in BRICS* Nicholas Sun-Keung Pang, Ewelina K. Niemczyk, 2025-09-30. This book aims to study the current transformations of higher education in the Brazil, Russia, India, China and South Africa (BRICS) countries. The conditions imposed by the Covid pandemic exposed many vulnerabilities in higher education systems but also provided valuable lessons that led to the implementation of effective changes. Educational changes are being applied to programmes, projects, practices and policies with varying degrees of success depending on the context. The needs of students and staff have changed and considerable attention has been given to the effective continuation of all academic activities through the use of technology. Often the nature of higher education and its role in society are being contemplated and ways of sustainable development are being debated. Therefore, contributors from the five BRICS member states present research findings and critical views on the recent development of higher education in their own countries, providing an opportunity for a unified effort and collective input to explore the transformation and reform of higher education. This book is intended for researchers, policymakers and postgraduate students in higher education, educational governance and comparative education.
