The Journal of Criminal Law, Criminology and Police Science, 1915 **Family Stories and the Life Course** Michael W. Pratt, Barbara H. Fiese, 2004-04-26 This edited book draws from work that focuses on the act of telling family stories as well as their content and structure The process of telling family stories is linked to central aspects of development including language acquisition affect regulation and family interaction patterns This book extends across traditional developmental psychology personality theory and family studies Drawing broadly on the epigenetic framework for individual development articulated by Erik Erikson as well as on conceptions of the family life cycle the editors bring together contemporary examples of psychological research on family stories and their implications for development and change at different points in the life course The book is divided into sections that focus on family stories at different points in the life cycle from early childhood and the beginnings of narrative skill through adolescence young adulthood midlife and then mature adulthood and its intergenerational meaning During each of these periods of the life cycle research focusing on individual development within an Eriksonian framework of ego strengths and virtues is highlighted The dynamic role of family stories is also featured here with work exploring the links between family process intergenerational attachment and storytelling Sociocultural theories that emphasize how such development is situated in the wider cultural context are also featured in several chapters This broad lifespan developmental focus serves to integrate the exciting diversity of this work and foster further questions and research in the emerging field of family narrative The book is intended primarily for researchers and advanced level students in the fields of developmental and personality psychology as well as those in family studies and in gerontology It may also be of interest to those in the helping professions who are concerned with family therapy and family issues and may due to its content and illustrative material have appeal to a wider market of the lay public The chapters are written in a readily accessible style and the analyses are presented in a fairly non technical way Because family stories are charted across the lifespan it would be a suitable companion book to a more traditional lifespan textbook in certain courses **Kansas Farmer**, 1915 *Town Journal*, 1928 *The Poland China Journal*, 1915 *Catalog of Copyright Entries. Byron Price, 2016-10-10 Throughout the nineteenth century the land known as Indian Territory was populated by diverse cultures troubled by shifting political boundaries and transformed by historical events that were colorful dramatic and often tragic Beyond its borders most Americans visualized the area through the pictures produced by non Native travelers artists and reporters all with differing degrees of accuracy vision and skill The images in *Picturing Indian Territory* and the eponymous exhibit it accompanies conjure a wildly varied vision of Indian Territory s past Spanning nearly nine decades these artworks range from the scientific illustrations found in English naturalist Thomas Nuttall s journal to the paintings of Frederic Remington Henry Farny and Charles Schreyvogel The volume

s three essays situate these works within the historical narratives of westward expansion the creation of an Indian Territory separate from the rest of the United States and Oklahoma s eventual statehood in 1907 James Peck focuses on artists who produced images of Native Americans living in this vast region during the pre Civil War era In his essay B Byron Price picks up the story at the advent of the Civil War and examines newspaper and magazine reports as well as the accounts of government functionaries and artist travelers drawn to the region by the rapidly changing fortunes of the area s traditional Indian cultures in the wake of non Indian settlement Mark Andrew White then looks at the art and illustration resulting from the unrelenting efforts of outsiders who settled Indian and Oklahoma Territories in the decades before statehood Some of the artworks featured in this volume have never before been displayed some were produced by more than one artist others are anonymous Many were completed by illustrators on site as the events they depicted unfolded while other artists relied on written accounts and vivid imaginations Whatever their origin these depictions of the people places and events of Indian Country defined the region for contemporary American and European audiences Today they provide a rich visual record of a key era of western and Oklahoma history and of the ways that art has defined this important cultural crossroads *The Liquor Question Among the Indian Tribes in Kansas, 1804-1881*, by Otto Froyen Frederikson...
