Contemporary Issues in Social Science Simon Grima,Ercan Özen,Hakan Boz,2021-05-25 This international exploration on different economic systems provides a comprehensive account which brings a wide range of countries to the forefront in terms of both comparability and accountability this study shines a light on the differences in systems between states and provides information to equip readers to minimize those differences

The Invention of Disaster JC Gaillard,2021-12-30 This theoretical contribution argues that the domination of Western knowledge in disaster scholarship has allowed normative policies and practices of disaster risk reduction to be imposed all over the world It takes a postcolonial approach to unpack why scholars claim that disasters are social constructs while offering little but theories concepts and methods supposed to be universal in understanding the unique and diverse experiences of millions of people across very different cultures It further challenges forms of governments inherited from the Enlightenment that have been rolled out as standard and ultimate solutions to reduce the risk of disaster Ultimately the book encourages the emergence of a more diverse set of world views senses and ways of knowing for both studying disasters and informing policy and practice of disaster risk reduction Such pluralism is essential to better reflect local realities of what disasters actually are around the world This book is an essential read for scholars and postgraduate students interested in disaster studies as well as policy

makers and practitioners of disaster risk reduction Pennsylvania Government and Politics Thomas J. Baldino, Paula A. Duda Holoviak, 2024-03-12 This book provides a comprehensive examination of the Keystone State's formal and informal political institutions and players past and present and elucidates the place each holds in governing the commonwealth today. Covering a period of more than three hundred years, this volume presents a clear and succinct overview of the commonwealth's political history, culture, and geography, interactions between office holders, civil servants, special interest groups, and the media, policy development and implementation, how laws are created, enacted, and enforced, hierarchy and interaction among state, county, local, and special district government bodies and officials, tax collection and disbursement, and the political upheaval in the wake of the COVID-19 pandemic and the 2020 presidential election. Featuring practical appendixes and interviews with current and past office holders, bureaucrats, party leaders, and political journalists, this astute and informative book is an indispensable tool for understanding politics in the Keystone State. **UPSC Power Bank: 1000+ MCQs for UPSC and State PSCs and exams Modern History (For Latest Edition)** Oswaal Editorial Board, 2024-10-12 100% Updated with the Latest Pattern of Questions asked in UPSC Prelims. Trend Analysis Provided by UPSC Experts *Sustainable Smart City Transitions* Luca Mora, Mark Deakin, Xiaoling Zhang, Michael Batty, Martin de Jong, Paolo Santi, Francesco Paolo Appio, 2022-02-23 This book enhances the reader's understanding of the theoretical foundations, sociotechnical assemblage, and governance mechanisms of sustainable smart city transitions. Drawing on empirical evidence stemming from existing smart city research, the book begins by advancing a theory of sustainable smart city transitions which forms bridges between smart city development studies and some of the key assumptions underpinning transition management and system innovation research, human geography, spatial planning, and critical urban scholarship. This interdisciplinary theoretical formulation details how smart city transitions unfold and how they should be conceptualized and enacted in order to be assembled as sustainable developments. The proposed theory of sustainable smart city transitions is then enriched by the findings of investigations into the planning and implementation of smart city transition strategies and projects. Focusing on different empirical settings, change dimensions, and analytical elements, the attention moves from the sociotechnical requirements of citywide transition pathways to the development of sector-specific smart city projects and technological innovations, in particular in the fields of urban mobility and urban governance. This book represents a relevant reference work for academic and practitioner audiences, policy makers, and representative of smart city industries. The chapters in this book were originally published as a special issue of the *Journal of Urban Technology*. Dear Science and Other Stories Katherine McKittrick, 2020-12-14 In *Dear Science and Other Stories*, Katherine McKittrick presents a creative and rigorous study of black and anticolonial methodologies. Drawing on black studies, studies of race, cultural geography, and

black feminism as well as a mix of methods citational practices and theoretical frameworks she positions black storytelling and stories as strategies of invention and collaboration She analyzes a number of texts from intellectuals and artists ranging from Sylvia Wynter to the electronica band Drexciya to explore how narratives of imprecision and relationality interrupt knowledge systems that seek to observe index know and discipline blackness Throughout McKittrick offers curiosity wonder citations numbers playlists friendship poetry inquiry song grooves and anticolonial chronologies as interdisciplinary codes that entwine with the academic form Suggesting that black life and black livingness are in themselves rebellious methodologies McKittrick imagines without totally disclosing the ways in which black intellectuals invent ways of living outside prevailing knowledge systems
