The Reactionary Mind Corey Robin, 2018 Late in life William F Buckley made a confession to Corey Robin Capitalism is boring said the founding father of the American right Devoting your life to it as conservatives do is horrifying if only because it s so repetitious It s like sex With this unlikely conversation began Robin s decade long foray into the conservative mind What is conservatism and what s truly at stake for its proponents If capitalism bores them what excites them In *The Reactionary Mind* Robin traces conservatism back to its roots in the reaction against the French Revolution He argues that the right was inspired and is still united by its hostility to emancipating the lower orders Some conservatives endorse the free market others oppose it Some criticize the state others celebrate it Underlying these differences is the impulse to defend power and privilege against movements demanding freedom and equality while simultaneously making populist appeals to the masses Despite their opposition to these movements conservatives favor a dynamic conception of politics and society one that involves self transformation violence and war They are also highly adaptive to new challenges and circumstances This partiality to violence and capacity for reinvention have been critical to their success Written by a highly regarded keen observer of the contemporary political scene *The Reactionary Mind* ranges widely from Edmund Burke to Antonin Scalia and Donald Trump and from John C Calhoun to Ayn Rand It advances the notion that all right wing ideologies from the eighteenth century through today are improvisations on a theme the felt experience of having power seeing it threatened and trying to win it back When its first edition appeared in 2011 *The Reactionary Mind* set off a fierce debate It has since been acclaimed as the book that predicted Trump New Yorker and one of the more influential political works of the last decade Washington Monthly Now updated to include Trump s election and his first one hundred days in office *The Reactionary Mind* is more relevant than ever

Justice Michael J. Sandel, 2007-09-27. Moreover, Sandel's organization of the readings and his own commentaries allow readers to engage with a variety of pressing contemporary issues. **Golfonomics** Stephen Shmanske, 2004-03-15. This book presents Stephen Shmanske's innovative research combining two of his passions: golf and economics. He develops two themes: the use of economics to explore institutional aspects of the business side of golf and the use of golf statistics to shed light on several vexing issues in economics. These two themes are addressed in two settings: the economics of golf course management and the economics of professional golf. Examples from golf course management are covered in separate chapters on golf cart usage, golf course maintenance, and the problem of slow play. Examples from professional golf include the causal relationships from practice to skill to earnings, the tournament compensation model, and the measurement of gender discrimination. *Automated Data Processing Systems* United States. Nixon remains an enigma even thirty years after his resignation. Of the many portraits of this complex man, none have been more intimate or revealing than this memoir from his personal physician, friend, and confidante of more than forty years, John C. Lungren. M.D. Dr. Lungren, with his son and co-author John C. Lungren Jr., portrays Nixon as a paradoxical man: intense, compassionate, guarded, intelligent, resilient, deeply religious, enormously successful, but ultimately tragic. Lungren describes his battle to restore the president's health after his resignation and reveals previously unknown details about Nixon's two intensive hospitalizations, his near-fatal vascular collapse, and his depression. Lungren experienced firsthand Nixon's thoughts and feelings during the public scrutiny of federal prosecution for his role in the Watergate break-in. Accused of shielding his friend, Lungren himself came under fire; his private office was even burgled in an apparent attempt to copy
