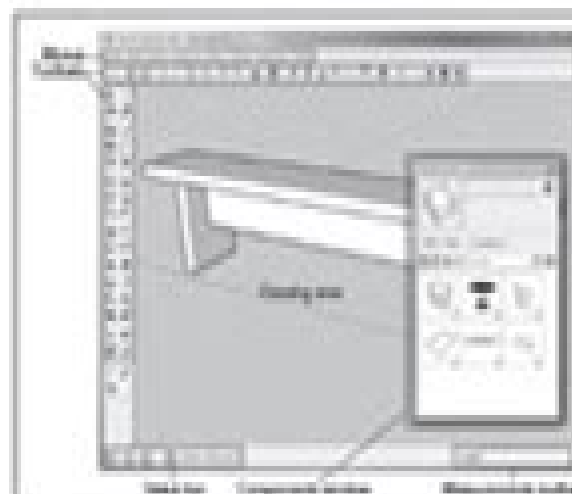

Figure 1-1: The SketchUp window. The SketchUp window is a familiar interface that you've seen in other 3D software. The SketchUp window shows how the SketchUp interface is organized. The SketchUp window shows how the SketchUp interface is organized. The SketchUp window shows how the SketchUp interface is organized.

In addition to the five main windows, SketchUp also includes several different windows, such as the Components window that's open in Figure 1-1. You can open and close these as needed by using the Window menu. With the tools in these windows, you'll apply color and shading to your models, select prefabricated components, add shadows and lighting effects, and export your project.

What's New

Don't Be Afraid to Play

When you get started, you'll see a lot of windows. Don't be afraid to play with them. The SketchUp interface is designed to be flexible and easy to use. You can move windows around, change their size, and even hide them. The SketchUp interface is designed to be flexible and easy to use. is, you'll see a lot of windows. Don't be afraid to play with them. The SketchUp interface is designed to be flexible and easy to use. You can move windows around, change their size, and even hide them.

SketchUp's menu bar is located at the top of the window, and it includes the File, Edit, Window, and Help menus. SketchUp's View menu is a little different from the ones in most programs (Figure 1-2). The View menu has items in the SketchUp window that you can show or hide, including things like the drawing guides, wire frame, measurement tools, and view different models. If you're looking for tools that change over time of the SketchUp window, such as the View menu, look under the Window menu.
