Fraser, 2023-09-21 The Bloomsbury Handbook of Schools and Religion provides the first truly global scan of contemporary issues and debates around the world regarding the relationship s between the state schools and religion Organized around specific contested issues from whether or not mindfulness should be practised in schools to appropriate and inappropriate religious attire in schools to long term battles about evolution sexuality and race to public funding Fraser Pearce and Fraser carefully curate chapters by leading experts exploring these matters and others in a diverse range of national settings The Bloomsbury Handbook of Schools and Religion offers a refreshingly new international perspective Secondary School English Education in Asia Bernard Spolsky, Kiwan Sung, 2015-03-27 Continuing on from the previously published Primary School English Language Education in Asia From Policy to Practice Moon Spolsky 2012 this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul Korea It surveys the current status practices challenges and future directions of Secondary English education in 11 diverse countries in Israel Japan Korea Singapore Bangladesh India Indonesia Malaysia Pakistan Vietnam and China Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia each contributed chapter includes key policies theories and practices related to the development and implementation of country specific curricular and instructional programs in secondary English educational contexts in these countries Secondary School English Education in Asia From Policy to Practice critically analyses both sides of the English language debate from advantages to complications in its chapters including Educating for the 21st Century The Singapore Experience Miles to Go Secondary Level English Language Education in India English Language Education Innovation for the Vietnamese Secondary School The Project 2020 Exploring the Value of ELT as a Secondary School Subject in China A Multi goal Model for English Curriculum Secondary School English Education in Asia will appeal to English Language Teaching ELT researchers teacher educators trainee teachers and teachers primarily those teaching in Asia Religion and Education Malini Sivasubramaniam, Ruth Hayhoe, 2018-01-01 Despite the increased trend towards secularisation in state schooling issues of religion and spirituality have remained important Increased pluralism within societies through expanding migration patterns is changing the religious and cultural contours of many countries in Europe and North America and is creating a need for a deeper understanding of religious diversity However the lack of religious or spiritual education within the educational curriculum leaves a moral vacuum that can become a space to be exploited by religious extremism More recently religiously motivated incidences of terrorism in several parts of the world have heightened prejudicial attitudes and distrust of certain religions in particular These are profound concerns and there is an urgency to examine how religious education and interfaith initiatives can address such misconceptions. This book is thus timely focusing on an area that is often neglected particularly

on the role of religion in education for sustainable development While religious organisations and faith communities have had a long history of involvement in both schooling and social service delivery in many countries their role in reaching development goals has not always been explicitly recognised as is evident even in the United Nations most recently conceptualised 2030 Agenda for Sustainable Development Undeniably the integration of religious dialogue into mainstream development issues is crucial because deep cleavages resulting from the issue of minority religious rights continue to give cause for concern and conflict in many countries This edited book explores some of these tensions and issues and draws parallels across differing geographical contexts to help enhance our collective and comparative understanding of the role of religious education and institutions in advancing the post 2015 development agenda The contributors to this volume each demonstrate that while religion in education can contribute to understanding and respect it is also a space that can be contested and co opted Without addressing the salience of religion however it will not be possible to foster peace and combat discrimination and prejudice This book will be of interest to researchers scholars and students in the field of comparative education and development religious studies theology and teacher development and training This book may also be of interest to national and international policy makers. There are also numerous faith based organisations as well as other non governmental organisations NGOs working on religion and education issues that may find these case studies a useful Ancient and Indigenous Wisdom Traditions in African and Euro-Asian Contexts Ehaab Abdou, Theodore resource Zervas, 2024-08-01 This book brings attention to the understudied and often overlooked guestion of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures histories and wisdom traditions With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures it includes unique contributions from scholars studying these questions in various contexts The book offers a range of important studies from key African and Euro Asian contexts including Afghanistan Albania Greece Iran South Africa Sweden T rkiye and Zimbabwe The various chapter contributions address and discuss nuances of each of the contexts under study The contributions also help highlight some key commonalities across these contexts including how dominant discourses and various forces have historically shaped and continue to shape and reproduce such omissions misrepresentations and marginalization In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures the book charts a path forward towards more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond It will appeal to scholars researchers undergraduate and graduate students with interests in Indigenous education curriculum studies citizenship education history of education religion and educational policy Faith and Politics in South Asia Astha Chadha, 2024-11-18 This book explores the role of faith and politics in shaping the international relations of South Asia Adopting a neo classical realist framework and a discourse historical

approach to analyze how religious actors construct their political identities and interests through the interpretation of sacred texts or exegesis the book makes several key contributions to the field of international relations It introduces the concept of exeges as a novel analytical tool to understand the role of religion in world politics. The book argues that exeges is not only a theological exercise but also a political one as it shapes the worldviews values norms and interests of religious actors The author applies exeges to three case studies of South Asia the partition of India and Pakistan the rise of Hindu nationalism in India and the emergence of Islamic radicalism in Pakistan and resurging signs of the same in Bangladesh The research then challenges the conventional assumptions of IR such as the secularization thesis the clash of civilizations and the rational actor model by showing how religious actors are not monolithic homogeneous or irrational but rather diverse heterogeneous and strategic The book offers a nuanced and comprehensive understanding of the role of religion in world politics especially in the context of South Asia Highlighting the diversity and complexity of the religious landscape in South Asia which is home to various faiths sects movements and ideologies this book will be of interest to academics studying global politics international relations Asian Studies and studies on religion and foreign policy Perspectives on School Textbooks Dobrochna Hildebrandt-Wypych, Alexander W.
