The economic returns to nutrition-specific investments in Southern Asia and Africa South of the Sahara Haile, Beliyu, Arndt, Channing, Ru, Yating, Alderman, Harold, Puett, Chloe, 2021-11-24 Childhood undernutrition manifests itself in various ways including stunting wasting underweight and micronutrient deficiencies Stunting being too short for the child's age captures a state of linear growth retardation and cumulative growth impairment due to chronic nutritional deficiency and illness that deprive a fetus and child of required nutrients Despite the global decline in stunting prevalence by over 25% since 1990 an estimated 22% of the 150 million children are currently stunted with significant regional and within region disparity Stunting is largely an irreversible outcome that stifles individuals from fulfilling their full development and economic potential It

increases the risk of impaired brain development with implications for cognitive and non cognitive functions educational performance productivity and chronic diseases later in life It also increases the frequency and severity of exposure to common infections with one in seven under 5 deaths linked to it Stunting and other forms of undernutrition costs countries billions of dollars in lost revenue and healthcare outlays This report presents results from a cost benefit analysis CBA of a package of nutrition specific investments studied as part of The Lancet Series on Maternal and Child Undernutrition and Copenhagen Consensus exercise The investments tackle the immediate causes of child undernutrition inadequate intake of nutrients diseases and infections and include behavior change communication programs to promote breastfeeding and complementary feeding supplementation of crucial micronutrients to pregnant women and young children provision of complementary foods to children and management of severe acute malnutrition We focus on two developing regions with the highest burden of stunting globally Southern Asia and Africa South of the Sahara SSA Economic benefits are modelled for a cohort of children born between 2015 and 2030 who will join the workforce at 18 years of age and retire when 60 years old Two benefit streams the value of avoided premature child mortality and lifetime earnings gains and two costs elements the cost of the nutrition investments and of delivering schooling are considered Benefit cost BC ratios are estimated under alternative scenarios based on the returns to stunting reductions and cost elements considered Besides discount rates previously used in the nutrition and economics literature between 3% and 6% we consider a 10% discount rate used by the Millennium Challenge Corporation MCC for the sake of comparability of economic returns to these nutritional investments with that of other sectoral investments by MCC

International Practices to Promote Budget Literacy

Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives

and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives
