deprofessionalized as their roles are oriented toward working class norms Students feel alienated by content that is meaningless and test based pedagogies that are disempowering While these findings are disturbing critical theory provides a foundation for seeking hope By incorporating inquiry and dialogue this theoretical framework opens a space where resistance can be revealed and examined In this case the study exposed glimmers of resistance spaces in the structure of schooling where students and teachers critique the system and suggest ways of subverting the negative effects of the neoliberal reforms through dialogic empowering culturally responsive pedagogies Collective resistance achieved through dialogic pedagogies that build on understandings of resistance and power can cultivate theoretical and material spaces where a cycle of praxis can enhance possibilities for social justice To that end the conclusion is devoted to the implementation of critical dialogic approaches to literacies approaches intended to interrupt the hegemonic influences that perpetuate social reproduction by capitalizing on the potential for solidarity and collective agency among the students and teachers who populate and educate the working classes This book would interest teacher educators teachers and school administrators
