tourists He also looks at the gendered aspect of these promotional campaigns particularly during the 1940s and challenges earlier interpretations regarding the relationship between tourism and nature in Canada Historians have tended to focus on either the first wave of consumerism from the 1880s to the 1920s or else on the era of economic expansion that followed World War Two As Dawson shows the 1930-45 period in particular was an important and dynamic one in the creation of Canadian and British Columbian consumer culture Michael Dawson's highly readable and engaging account of the development of the British Columbia tourist industry will be welcomed by British Columbian and Canadian historians as well as other scholars of tourism and consumerism

Bordering Britain Nadine El-Enany, 2020-02-11 *Bordering Britain* argues that Britain is the spoils of empire its immigration law is colonial violence and irregular immigration is anti colonial resistance In announcing itself as postcolonial through immigration and nationality laws passed in the 60s 70s and 80s Britain cut itself off symbolically and

physically from its colonies and the Commonwealth taking with it what it had plundered This imperial vanishing act cast Britain s colonial history into the shadows The British Empire about which Britons know little can be remembered fondly as a moment of past glory as a gift once given to the world Meanwhile immigration laws are justified on the basis that they keep the undeserving hordes out In fact immigration laws are acts of colonial seizure and violence They obstruct the vast majority of racialised people from accessing colonial wealth amassed in the course of colonial conquest Regardless of what the law media and political discourse dictate people with personal ancestral or geographical links to colonialism or those existing under the weight of its legacy of race and racism have every right to come to Britain and take back what is theirs
