International Histories of Psychological Assessment Sumaya Laher, 2022-08-11 This book brings together expert research on the history of psychological assessment across the continents and spanning over 50 countries

Implementing Deeper Learning and 21st Century Education Reforms Fernando M. Reimers, 2020-11-04 This open access book is a comparative analysis of recent large scale education reforms that broadened curriculum goals to better prepare students for the 21st century The book examines what governments actually do when they broaden curriculum goals with attention to the details of implementation To this end the book examines system level reforms in six countries at various levels of development The study includes system level reforms in jurisdictions where students achieve high levels in international assessments of basic literacies such as Singapore and Ontario Canada as well as in nations where students achieve much lower levels such as Kenya Mexico Punjab Pakistan and Zimbabwe The chapters examine system level reforms that focus on strengthening the capacity to teach the basics as in Ontario and Pakistan as well as reforms that aim at building the capacity to teach a much broader set of competencies and skills such as Kenya Mexico Singapore and Zimbabwe The volume includes systems at very different levels of spending per student and reforms at various points in the cycle of policy implementation some just starting some struggling to survive a governmental transition and others that have been in place for an extended period of time From the comparative study of these reforms we aim to provide an understanding of how to build the capacity of education systems to teach 21st century skills at scale in diverse settings

International Handbook of Mathematical Learning Difficulties Annemarie Fritz, Vitor Geraldi Haase, Pekka Räsänen, 2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there s still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings Now it s time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the *International Handbook of Mathematical Learning Difficulties* an essential tool for those involved in the daily struggle to

prepare the future generations to succeed in the global knowledge society New Leaders, New Dawns? Chris Brown, David Moore, Blair Rutherford, 2022-06-17 In late 2017 and early 2018 South Africa and Zimbabwe both experienced rapid and unexpected political transitions In Zimbabwe Robert Mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president Emmerson Mnangagwa Over a twelve day period in February 2018 South African president Jacob Zuma was prematurely forced from office by his former deputy president Cyril Ramaphosa The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions *New Leaders New Dawns* explores these political transitions and the way they were received Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of Ramaphosa and Mnangagwa foreshadowed Bringing together fourteen leading international scholars of southern Africa and adopting a political economy framework this volume argues that the changes in leadership are welcome but insufficient While the time had come for Zuma and Mugabe to go there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face *New Leaders New Dawns* reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern Africa

Handbook on Comparative and International Studies in Education Donald K. Sharpe, 2016-11-01 This Handbook is a comprehensive reference book for libraries scholars and comparative and international studies researchers It contains 33 chapters on all major educational topics including research using all qualitative and quantitative methodologies with research from 23 countries and all inhabited continents Here you as a scholar will find research from countries not usually known for published educational schooling topics The globalization of educational research has not typically kept pace with the globalization of economies or communication technologies This Handbook includes expanded research capabilities from both developed and less developed countries throughout the world **Tourism, Philanthropy and School Tours in**

Zimbabwe Kathleen Smithers, 2024-08-05 This book explores the phenomena of school tours and tourism It explores tensions of authenticity and artificiality in the school site being both a place of community learning and a spectacle for tourism consumption Through the example of a school in Matabeleland North Zimbabwe the book examines the act of a school tour whose main aim is to providing fund for the school It offers a unique interdisciplinary lens that examines both the school as a tourism destination and as a site of learning By drawing on these two fields the book provides insights into the tensions inherent in a school that is also a tourism destination This book will demonstrate to readers the tensions present in tourism partnerships with schools that include some source of philanthropic funding and unpack the complexities of tourism that draws on stereotypical cultural images It explores these tensions through the lens of school leaders students teachers and tourism personnel The book provides a major and unique contribution to the field of tourism studies and education It will be

of interest to students and researchers interested in tourism studies sociology education philanthropy development studies and the Global South

Towards Democratic Development States in Southern Africa Godfrey Kanyenze, Herbert Jauch, 2016-12-14 The dawn of the twenty first century heralded an apparent change of fortunes for most sub Saharan African economies with annual growth averaging over 5% for fifteen years However this was not accompanied by structural transformation poverty food insecurity unemployment and inequality persist Structural transformation has not been and indeed cannot be delivered by market forces and neo liberal economic policies it requires a state committed to development and to achieving it in a democratic way To what extent do the countries of Southern Africa exhibit the characteristics of such a developmental state What steps if any do they need to take in order to become one The book answers the questions with respect to South Africa Botswana Namibia Zimbabwe Angola and Malawi Godfrey Kanyenze and his colleagues have assembled a distinguished team of writers to take the temperature of the regional political economy and chart a path for its future development

The World Factbook ,2016

Civil Society and the Party-state in Zimbabwe Zenzo Moyo, 2024-08-21 The book utilises Gramsci s concepts of hegemony counter hegemony organic intellectuals and integral state to interrogate how modes of engagement between the state and civil society have contributed to a polarised polity in Zimbabwe and in turn how this has impacted democratisation processes This was achieved by analysing intra civil society interactions and state civil society relations which established deep polarised relationships that can be traced back to the liberation struggle It also interrogates ideologies that drive these polarised relations and how together with material benefits from donors and the party state these relations impact ordinary people s modes of existence One of the arguments that emerge from the book is that political polarisation in Zimbabwe has now morphed into an established political culture that has played a huge role in the retardation of democratic struggles It uses ideas of entangled modernities and travelling theory to cast doubt on the belief that civil society is the missing key in the democratisation of developing countries
