Excellence Gaps in Education Jonathan A. Plucker, Scott J. Peters, 2020-01-15 2017 Texas Association for Gifted and Talented Legacy Scholar Book Award 2017 National Association of Gifted Children Scholar Book of the Year Award In Excellence Gaps in Education Jonathan A Plucker and Scott J Peters shine a spotlight on excellence gaps the achievement gaps among subgroups of students performing at the highest levels of achievement Much of the focus of recent education reform has been on closing gaps in achievement between students from different racial ethnic or socioeconomic backgrounds by bringing all students up to minimum levels of proficiency Yet issues related to excellence gaps have been largely absent from discussions about how to improve our schools and communities Plucker and Peters argue that these significant gaps reflect the existence of a persistent talent underclass in the United States among African American Hispanic Native American and poor students resulting in an incalculable loss of potential among our fastest growing populations Drawing on the latest research and a wide range of national and international data the authors outline the scope of the problem and make the case

that excellence gaps should be targeted for elimination They identify promising interventions for talent development already underway in schools and provide a detailed review of potential strategies including universal screening flexible grouping targeted programs and psychosocial interventions Excellence Gaps in Education has the potential for changing our national conversation about equity and excellence and bringing fresh attention to the needs of high potential students from underrepresented backgrounds

Non-cognitive Skills and Factors in Educational Attainment Myint Swe Khine, Shaljan Aarepattamannil, 2016-07-28 This volume addresses questions that lie at the core of research into education It examines the way in which the institutional embeddedness and the social and ethnic composition of students affect educational performance skill formation and behavioral outcomes It discusses the manner in which educational institutions accomplish social integration It poses the question of whether they can reduce social inequality or whether they even facilitate the transformation of heterogeneity into social inequality Divided into five parts the volume offers new insights into the many factors processes and policies that affect performance levels and social inequality in educational institutions It presents current empirical work on social processes in educational institutions and their outcomes While its main focus is on the primary and secondary level of education and on occupational training the book also presents analyses of institutional effects on transitions from vocational training into tertiary educational institutions in an interdisciplinary and internationally comparative approach
