secretizing of all knowledge about the superlative human powers known to exist in individuals of the human species but which are socially forced into latency in most. It is broadly understood that power and secrecy go together but the scope of the web of secrets surrounding the larger nature of human powers is surprising. As discussed in this Volume I of SECRETS OF POWER empowerment is difficult if the larger panorama of societal power and depowerment are not more fully understood.

Psychic Sexuality Ingo Swann, 2018-09-02 In 1989 pioneering consciousness researcher Ingo Swann joined Dr Elmer Green at the Menninger Foundation for groundbreaking experiments inside an electrostatic copper wall chamber designed to enhance psychic perception. What Swann experienced there would redefine his understanding of the human energy field and of the powerful life force linked to sexual energy. In *Psychic Sexuality* Swann reports on the energetic systems associated with desire and vitality forces most of us sense yet rarely see. He traces how ancient and modern seekers alike have explored these high energy states only to face centuries of social and scientific suppression. Equal parts scientific exploration and metaphysical revelation, this book presents a candid eye-opening look at the connection between sexuality, consciousness and psychic potential and asks why such research has been hidden in plain sight. ____ Note: These reprints of Ingo Swann's works are offered for educational and inspirational purposes. They reflect the author's personal experiences and perspectives and are not intended as medical, psychological or professional advice.

Penetration Ingo Swann, 2018-09-02 Ingo Swann, renowned psi researcher, reveals a long-held secret series of experiences with a deep black agency whose apparent charter was simple: UFOs and extraterrestrials on the moon and worries about ET telepathic mind control powers. The agency was so secret that it had no paper trail and hence no written secrecy agreements. Only the verbal ones, which in Ingo's case expired several years ago. Now in this era of burgeoning UFO glasnost, he tells a story of meetings held in a secret underground facility not far from Washington DC and of being taken to a remote location near the Arctic Circle to witness the expected arrival of a huge UFO over the surface of an Alaskan lake. This book discusses undeveloped human telepathy and contrasts it with the probable existence of fully developed alien telepathy which may have many different forms. Ingo also explores the fact that we officially know far more than we're admitting about the Moon: its origins, its atmosphere, its occupants and many other unusual features. *Penetration* is about one of the means by which we can learn more about those not of this earth and vice versa: telepathy. Do we have the means to answer some very important questions that many have been asking for quite a long time? Inside this book are the answers to some
