Arrhythmias	Description	Causes	Treatment
Sinus Arrhythmia 	- Irregular atrial and ventricular rhythms. - Normal P wave preceding each QRS complex.	- Normal variation of normal sinus rhythm in athletes, children, and the elderly. - Can be seen in digoxin toxicity and inferior wall MI.	Atropine if rate decreases below 40bpm.
Sinus Tachycardia 	- Atrial and ventricular rhythms are regular. - Rate > 100 bpm. - Normal P wave preceding each QRS complex.	- Normal physiologic response to fever, exercise, anxiety, dehydration, or pain. - May accompany shock, left-sided heart failure, cardiac tamponade, hyperthyroidism, and anemia. - Atropine, epinephrine, quinine, caffeine, nicotine, and alcohol use.	- Correction of underlying cause. - Beta-adrenergic blockers or calcium-channel blockers for symptomatic patients.
Sinus Bradycardia 	- Regular atrial and ventricular rhythms. - Rate < 60 bpm. - Normal P wave preceding each QRS complex.	- Normal in a well-conditioned heart (e.g., athletes). - Increased intracranial pressure: increased vagal tone due to slurring during defecation, vomiting, intubation, mechanical ventilation.	- Follow ACLS protocol for administration of atropine for symptoms of low cardiac output: dizziness, weakness, altered LOC, or low blood pressure. - Pacemaker
Sinoatrial (SA) arrest or block 	- Atrial and ventricular rhythms are normal except for missing complexes. - Normal P wave preceding each QRS complex. - Pause not equal to multiple of the previous rhythm.	- Infection - Coronary artery disease, degenerative heart disease, acute inferior wall MI. - Irrigal stimulation, vagus nerve maneuvers, carotid sinus massage.	- Treat symptoms with atropine IV. - Temporary pacemaker or permanent pacemaker if considered for repeated episodes.
Wandering atrial pacemaker 	- Atrial and ventricular rhythms vary slightly. - Irregular PR interval. - P waves irregular with changing configurations indicating they aren't all from SA node or single atrial focus; may appear after the QRS complex. - QRS complexes are uniform in shape but irregular in rhythm.	- Rheumatic carditis due to inflammation involving the SA node. - Digoxin toxicity - Sick sinus syndrome	- No treatment if patient is asymptomatic. - Treatment of underlying cause if patient is symptomatic.
Premature atrial contraction (PAC) 	- Premature, abnormal-looking P waves that differ in configuration from normal P waves. - QRS complexes after P waves except in very early or blocked PACs. - P wave often buried in the preceding T wave or identified in the preceding T wave.	- May precede supraventricular tachycardia. - Stimulants, hyperthyroidism, COPD, infection and other heart diseases.	- Usually no treatment is needed. - Treatment of underlying causes if the patient is symptomatic. - Carotid sinus massage.

Risk Stratification Strategies for Cardiac Rhythm Abnormalities, 2nd edition N A, Kamalan Jeevaratnam, Konstantinos Letsas, Tong Liu , Tachapong Ngarmukos, 2025-01-03

Exploring Mechanisms of Cardiac Rhythm Disturbances Using Novel Computational Methods: Prediction, Classification, and Therapy Xin Li, G. Andre Ng, Fernando Soares Schlindwein, Jichao Zhao, Martin Bishop, 2023-03-16

Short Stay Management of Atrial Fibrillation W. Frank Peacock, Carol L. Clark, 2016-07-26 This book provides a road map for the efficient and successful management of atrial fibrillation AF in the short stay unit It describes the problem defines the measures of successful treatment elucidates interventions and supplies the tools for achieving quality care Organized in four parts it covers the impact of AF on patient populations the presentation and management of AF the transition to the outpatient environment and systems management Topics include the economic consequences of AF cardioversion and cardiac implantable electronic devices in AF management education of the AF patient and discharge planning and quality metrics in AF The book also provides order sheets and process criteria with which institutions can successfully manage the AF patient in the short stay unit thus optimizing patient outcomes patient satisfaction and operational efficiencies Short Stay Management of Atrial Fibrillation is a valuable resource for cardiologists emergency medicine physicians electrophysiologists and other healthcare professionals involved in AF management

The Medical Library Association Guide to Providing Consumer and Patient Health Information Michele Spatz, 2014-05-01 Comprised of fifteen chapters written by experienced consumer health librarians The Medical Library Association Guide to Providing Consumer and Patient Health Information is designed for

library and information science graduate students as well as librarians new to health and medical librarianship regardless of library setting It is comprehensive in scope covering all aspects of consumer and patient health and medical information from their humble grassroots beginnings to the ever evolving applications of new technology and social media In between the mundane aspects of health and medical librarianship such as needs assessment costs budgeting and funding and staffing are discussed Adding richness to this discussion are the coverage of more sensitive topics such as patient friendly technology ethical issues in providing consumer and patient health information meeting the needs of diverse populations and responding to individuals from various cultural backgrounds No comprehensive picture of consumer and patient health librarianship would be complete without addressing the critical importance of marketing and strategic partnerships such discussions round out this invaluable guide Patients today must be knowledgeable enough to participate in their health and well being Shorter hospital stays changing reimbursement patterns and the gradual shift towards focusing on proactively maintaining health and managing disease require patients to be informed and actively engaged Education information and understanding are important components of actively engaged patients Correspondingly in today's world there is a glut of information resources available through the Internet from YouTube videos to Googling to blogs and Twitter feeds What is lacking in these information rich times is the relevance of meaning and context for those who ask Does this health and medical information apply to me and my unique clinical picture or How do I use this information As knowledge navigators information technology wizards and content experts librarians offer focused responses to individuals specific and highly personal health and medical information queries In a new healthcare world order of optimizing health and minimizing hospitalizations such a service is invaluable Sadly there still exists in our highly networked and technological age an information gap for those who struggle in obtaining meaningful health or medical information These individuals may be foreign born non English speaking poor rural aged or semi literate Whatever their status librarians must have the wherewithal to find germane resources and also help create responsive mechanisms to bridge that health information gap for vulnerable citizens The Medical Library Association Guide to Providing Consumer and Patient Health Information will guide you on the road to providing that response

Thyroid Hormones and Cardiac Arrhythmia Johannes Wolfgang Dietrich,Melvin Khee Shing Leow,Patrick Mueller,2022-10-17 **Wearable Devices for Cardiac Rhythm Monitoring** David Duncker,Emma Svennberg,2022-07-13

Multi-slice and Dual-source CT in Cardiac Imaging Bernd M. Ohnesorge,Thomas G. Flohr,Christoph R. Becker,Andreas Knez,Maximilian F Reiser,2006-12-15 This book discusses the state of the art developments in multi slice CT for cardiac imaging as well as those that can be anticipated in the future It is a comprehensive work covering all aspects of this technology from the technical fundamentals to clinical indications and protocol recommendations This second edition draws on the most recent clinical experience obtained with 16 and 64 slice CT scanners by world leading experts The book also has chapters on area detector CT and the brand new dual source CT **Neurocardiac Oscillation in Repolarization**
