**Hlysnan** Berit Fischer, 2014      **The Political Possibility of Sound** Salomé Voegelin, 2018-11-01 The essay is the perfect format for a crisis Its porous and contingent nature forgives a lack of formality while its neglect of perfection and virtuosity releases the potential for the incomplete and the unrealizable These seven essays on The Political Possibility of Sound present a perfectly incomplete form for a discussion on the possibility of the political that includes creativity and invention and articulates a politics that imagines transformation and the desire to embrace a connected and collaborative world The themes of these essays emerge from and deepen discussions started in Voegelin s previous books Listening to Noise and Silence and Sonic Possible Worlds Continuing the methodological juxtaposition of phenomenology and logic and writing from close sonic encounters each represents a fragment of listening to a variety of sound works to music the acoustic environment and to poetry to hear their possibilities and develop words for what appears impossible As fragments of writing they respond to ideas on geography and migration bring into play formless subjectivities and trans objective identities and practice collectivity and a sonic cosmopolitanism through the hearing of shared volumes They involve the unheard and the in between to contribute to current discussions on new materialism and perform vertical readings to reach the depth of sound

*Racialization, Racism, and Anti-Racism in the Nordic Countries* Peter Hervik, 2018-08-11 This book represents a comprehensive effort to understand discrimination racialization racism Islamophobia anti racist activism and the inclusion and exclusion of minorities in Nordic countries Examining critical media events in this heavily mediatized society the contributors explore how processes of racialization take place in an environment dominated by commercial interests anti migrant and anti Muslim narratives and sentiments and a surprising lack of informed research on national racism and racialization Overall in tracing how these individual events further racial inequalities through emotional and affective engagement the book seeks to define the trajectory of modern racism in Scandinavia      **Architecture and Silence** Christos P. Kakalis, 2019-08-23 This book explores the role of silence in how we design present and experience architecture Grounded in phenomenological theory the book builds on historical theoretical and practical approaches to examine silence as a methodological tool of architectural research and unravel the experiential qualities of the design process Distinct from an entirely soundless experience silence is proposed as a material condition organically incorporated into the built and natural landscape Kakalis argues that either human or atmospheric silence is a condition of waiting for a sound to be born or a new spatio temporal event to emerge In silence therefore we are attentive and attuned to the atmosphere of a place The book unpacks a series of stories of silence in religious topographies urban landscapes film and theatre productions and architectural education with contributed chapters and interviews with Jeff Malpas and Alberto Perez Gomez Aimed at postgraduate students scholars and researchers in architectural theory it shows how performative and atmospheric qualities of silence can build a new understanding of architectural experience      **Race Sounds** Nicole Brittingham Furlonge, 2018-05-15 We live in
