**Estimating and monitoring the costs of building roads in England** Great Britain: Parliament: House of Commons: Committee of Public Accounts,2007-11-08 The Department for Transport has approved expenditure of over 11 billion between 1998 and 2021 for the development of new and existing trunk roads and motorways by the Highways Agency and just under 1 7 billion on major road schemes proposed and developed by local authorities in five year Local Transport Plans Following on from a NAO report on this topic HCP 321 session 2006 07 ISBN 9780102944600 published in March 2007 the Committee s report examines the steps taken by the Department for Transport and the Highways Agency to improve value for money and oversight of the roads programme and contracting methods and project management capability By September 2006 the Agency s 36 completed schemes in the Targeted Programme of Improvement cost 40 per cent more than estimated initially and for schemes still to be completed latest forecasts indicate that final costs could be 27 per cent more than original estimates The main causes for costs exceeding estimates are increases in construction costs higher than forecast land prices and compensation to landowners inflation and changes in the scope of the project The report finds that the DfT has not been rigorous enough in its oversight of the Agency s delivery of major road schemes allowing it too much latitude on delivery and cost plans and has failed to monitor in year expenditure against progress and delivery milestones The Agency is overly reliant on consultants for project management expertise and needs to develop its in house capability *Annual Report of the Commissioner of Highways for the State of Maine for the Year ...* ,1906 **Congressional Record** United States.
