Pet Politics Susan Hunter, Richard A. Brisbin, 2016-02-15 Although scholars in the disciplines of law psychology philosophy and sociology have published a considerable number of prescriptive normative and theoretical studies of animals in society Pet Politics presents the first study of the development of companion animal or pet law and policy in Canada and the United States by political scientists The authors examine how people and governments classify three species of pets or companion animals cats dogs and horses for various degrees of legal protection They then detail how interest groups shape the agenda for companion animal legislation and regulation and the legislative and administrative formulation of anticruelty kennel licensing horse slaughter feral and roaming cat and breed ban policies Finally they examine the enforcement of these laws and policies by agencies and the courts Using an eclectic mix of original empirical data original case studies and interviews and relying on general theories and research about the policy process and the sociopolitical function of legality the authors illustrate that pet policy is a unique field of political struggle a conflict that originates from differing perspectives about whether pets are property or autonomous beings and clashing norms about the care of animals The result of the political struggle the authors argue is difficulty in the enactment of policies and especially in the implementation and enforcement of laws that might improve the welfare of companion animals

Harold Sims, 2023-02-14 All for the Love of Cats is a collection of stories poems and interesting facts about America's most popular pet the house cat It was written in the 87th year of my life I am a retired person who never really retired My life began in April of the year 1935 A time when America suffered from a great depression I was born in Mount Vernon New York into a family that was poor My mother and father married very soon after graduating from high school with no skills to qualify them for good jobs So my father made a meager salary and my mother stayed home with me His jobs came and went Before I was five we moved from Mount Vernon to Cos Cob Connecticut to Riverside to Roatan to Old Greenwich I spent the war years there and at my age ten we moved to a small town in upstate New York named Sempronius where we ran a chicken farm It was there that I met my first cat and I have loved cats ever since I left there in 1953 tried a semester of college flunked out and joined the Navy in Key West Florida and I didn't have contact with another cat until I married my wife Kay in 1962 and we bought a copper eyed Persian cat named Buzzy Buzzy lived with us for nineteen years and after he died we didn't have another cat until the nineteen eighties when a white short hair cat named Marco Polo came to our summer home in Cashiers North Carolina Marco soon had a small Maine Coon female for a friend and soon the stray started coming to our door and by the time we retired in 1993 we had anywhere from six to ten cats sharing our home But it wasn't until 1995 when we moved from Clearwater Florida to Cashiers North Carolina and found that that town and all the other towns around us had a serious problem with stray and abandoned cats and we began helping to save as many of them as we could and any other plans we had for our retirement were gone with the wind and we spent all of our years of retirement operating a no kill shelter and adoption center and we worked harder than I did a college professor and Kay as a school social worker harder than we had ever worked before When you operate a cat shelter you don't work nine to five you work seven twenty four three sixty five because cats work those same hours and they may need assistance at any time of the day or night This book tells the story of our life since we though we retired in 1993 All the stories are true I wrote the poems and put together the facts about cats and how they became pets and companions that enriched our lives The idea for a cat museum had been in our minds since we learned that there were none in America and we began buying items for a museum But it wasn't until 2017 that we were able to open a small cat museum in one room of a local antique mall and we learned that cat people did indeed want to visit a cat museum and people from all over the world have come to visit I hope I live forever but my wife died at age 87 so it is unlikely I will live forever and when I do I hope all the people who love cats will come together and help the museum live on after me with donations to the cause Information of how you can help can be found on the last few pages on this book Please buy a copy learn more about your cats and help the museum to live on into the future to educate and entertain cat lovers in the near and far future *The New Natural Cat* Anita Frazier, Norma
