Company Time Conclusion Author Bio Publisher Introduction Some days ago another management professional colleague asked me why I would want to write a book upon how to get ahead in your career because everybody who was sensible and was professional enough to think about how best he could advance in his career knew the first three basic steps so well loved by every boss take the long hours the hard work and the tasks which other people think impossible as a challenge especially in the beginning of your career Within a couple of years all of this will be a part of your working habits and ethos As this book has been written for a global audience I will take both the Eastern and the Western work traditions ethics working conditions and atmospheres into consideration Also there are a large number of factors and moves which may limit your career of which you do not know and have not guessed So if you do not intend to have your career blow up in a tremendous boom taking your future along with it it is time that you start getting serious about how to advance your career without making any moves which will limit it When you read this book you may say why it looks like I am talking more about American work cultures but then as this book is for a global audience and I am talking of what I speak American work cultures French British Australian and Asian work cultures and working environments I have all of these to compare and to bring to your attention Also you may say that I may have digressed sometimes on topics which are according to you nothing to do with your career but I am talking about social norms cultures and traditions in those examples They are just for general knowledge and possibly as cautionary tales about things you do not do especially when you have taken up a job abroad far away from your own country and in a strange culture away from your own land      *The Wesleyan methodist association magazine* ,1846
