Drug Addiction Treatment Yulia Basharova, 2025-01-30 Annotation This book provides detailed instructions on how to get a patient to treat you Voluntary compulsory using pressure and leverage We will explain to you specifically what to do what to say how to respond to any manipulation by the patient Examples of all the dialogues that take place between a drug addict denying the disease and his family are given The book is written from the words of a psychiatrist with 30 years of experience Maxim Malyavin This is the second book in the Self help guide for smart drug addicts series The series consists of three books The first book is about the nature of drug addiction and the psychology of patients The second is about how to treat and the third is lessons for home treatment This is not just a book it is a full fledged treatment at home independently The

course is designed for 3 months of home isolation Our method guarantees recovery if you follow all the recommendations in the book and do not engage in amateur activities Drug addiction is definitely curable do not even doubt it And do not believe those who claim the opposite We offer a scientific working approach to treatment based on psychiatry There are no psychological guesses and unnecessary reasoning This book is psychotherapy in itself Reading it the patient recognizes himself in different situations and his self deception disappears he begins to think sensibly and a great desire to quit appears

Quotes From the Book You don t know believe me If you did your addict would have quit as soon as he started using But if you couldn t stop him don t argue But this opinion is quite CONVENIENT for lay doctors who thanks to it have much greater chances for a positive treatment result And if in this case the result is negative you can always say Well that means he didn t really want By softening things up you won t help him You ll only be doing him a disservice and helping him deceive himself which means you ll just hurt him As long as there is AT LEAST ONE person in the family who covers for him and is susceptible to manipulation he will not quit drugs Don t under any circumstances bring in psychologists favorite tricks here such as personal boundaries desire to control he s an adult codependency etc This has absolutely nothing to do with your situation Your child is sick just as if he had contracted something else that was incompatible with life He is not his own master now and is not an adult at all chemistry is stronger than personality and reason Also do not believe those who claim that a drug addict must reach the bottom himself They say that he will then push off from it and swim out This is not so believe me Only a few emerge but tens of thousands go to the grave If we use common sense it becomes obvious that the role of parents in a child s drug addiction is generally insignificant Neither the upbringing nor the environment of the child nor the moral climate in the family matter You have to try everything in life Seriously Then try poop Why not What did poop do to deserve not being on the list Or try changing your gender You haven t tried sex as a woman yet have you Try it You can also try jumping from the roof Some people fly from roofs You should know that drug addiction has an ugly face It is cruel merciless it will insult you with the worst words it will convince you of your madness it will spit on all the good that you try to do and will turn it over in the light of condemnation of you But if you ve taken on a task don t say you can t handle it If you ve started treatment and taken even one step there s no turning back You ll do harm And you ll confuse the sick person completely If you don t feel sorry for other people and the addict s comfort is more important to you then think about the fact that he can also crash and become disabled Are you sure that being bedridden for life after an accident he won t thank you for this disservice Or if he gets put in jail for a long time for hitting a person will you be happy Drug addicts are difficult people You need to learn to thoroughly understand their sick logic You need to be able to predict the motives of their actions and statements You must be stronger than them in knowledge of the subject You must be able to hit the ball of any of their manipulations You must not give in to provocations And you must have the levers of control over them But the end of this fairy tale is usually sad The addict breaks down within the first week as soon as he arrives home A couple of months at most
