industrially built so far. Additionally, we put in the functions of the HP 16C, the HP 32SII, and the HP 21S. Furthermore, we added numerous useful functions for mathematics, statistics, physics, engineering, programming, I/O, etc., such as many statistical distributions and their inverses, Euler's Beta and Riemann's Zeta functions, Bernoulli and Fibonacci numbers, Lambert's W, the error function, and the Chebyshev, Hermite, Laguerre, and Legendre orthogonal polynomials. Forget heavy table books: programmable sums and products, first and second derivatives, integer computing in fifteen bases from binary to hexadecimal, bidirectional serial communication with your computer, battery fail-safe on-board backup memory, 88 conversions, mainly from old Imperial to universal SI units and vice versa, 50 fundamental physical constants, plus a selection of important numbers from mathematics, astronomy, and surveying, Greek and extended Latin letters, plus mathematical symbols, and a stopwatch based on a real-time clock with hardware. Added WP 34S is the first RPN calculator offering you a choice of two stack sizes: traditional 4 stack levels for HP compatibility, 8 levels for convenient calculations in complex domain, advanced real calculus, vector algebra in 4D, or for whatever application you have in mind. WP 34S features up to 107 global registers, 112 global flags, up to 928 program steps in RAM, up to 6014 program steps in flash memory, a 30-byte alpha register, 16 local flags, as well as up to 144 local registers, allowing for recursive programming, and 4 user-programmable hotkeys. Most of the memory layout is conveniently settable by you. This is the newest edition of the manual, containing 404 pages. Compared to previous editions, one section, three chapters, and numerous examples were added, easing your path to the over 700 functions of your WP 34S. It also includes everything you want to know about flashing, updating, and tuning your WP 34S. This is the true and original WP 34S reference, written by one of the two initiators of this project. Recommended for any serious science or engineering student, as well as for professionals in these areas. WP 34S reached its present state, growing on our love for Hewlett-Packard's vintage Classics, Woodstocks, Spices, Nuts, Voyagers, and Pioneers. WP 34S has proven success in real-world applications, being on the market since 2011. It has got a little brother, the WP 31S, described elsewhere. Please see http://www.hpmuseum.org/forum/forum_8.html for more information about our further progress in this matter. Last update of the print: 2016-6-6.
