Inventing The Dream:

Inventing the Dream Kevin Starr, 1986-12-04 This second volume in Kevin Starr's passionate and ambitious cultural history of the Golden State focuses on the turn of the century years and the emergence of Southern California as a regional culture in its own right. How hauntingly beautiful, how replete with lost possibilities, seems that Southern California of two and three generations ago now that a dramatically different society has emerged in its place, writes Starr. As he recreates the lost California, Starr examines the rich variety of elements that figured in the growth of the Southern California way of life: the Spanish Mexican roots, the fertile land, the Mediterranean-like climate, the special styles in architecture, the rise of Hollywood. He gives us a broad array of engaging and often eccentric characters from Harrison Gray Otis to Helen Hunt Jackson to Cecil B. DeMille. Whether discussing the growth of winemaking or the burgeoning of reform movements, Starr keeps his central theme in sharp focus: how Californians defined their identity to themselves and to the nation.

Inventing the Dream Kevin Starr, 1985 This second volume in Kevin Starr's passionate and ambitious cultural history of the Golden State focuses on the turn of the century years and the emergence of Southern California as a regional culture in its own right. How hauntingly beautiful, how replete with lost possibilities, seems that Southern California of two and three generations ago now that a dramatically different society has emerged in its place, writes Starr. As he recreates the lost California, Starr examines the rich variety of elements that figured in the growth of the Southern California way of life: the Spanish Mexican roots, the fertile land, the Mediterranean-like climate, the special styles in architecture, the rise of Hollywood. He gives us a broad array of engaging and often eccentric characters from Harrison Gray Otis to Helen Hunt Jackson to Cecil B. DeMille. Whether discussing the growth of winemaking or the burgeoning of reform movements, Starr keeps his central theme in sharp focus: how Californians defined their identity to themselves and to the nation. A delightful and extremely thorough chronicle of a state that is almost a mythical kingdom. *St. Louis Post Dispatch*. An excellent book, vividly written, thoroughly researched, rich in details and alive with interesting and sometimes incredible people. *Los Angeles Times*. *Inventing the Dream* Kevin Starr, 1985

Material Dreams Kevin Starr, 1990-04-12 Kevin Starr is the foremost chronicler of the California dream and indeed one of the finest narrative historians writing today on any subject. The first two installments of his monumental cultural history, *Americans* and *The California Dream*, have been hailed as mature, well proportioned and marvelously diverse and diverting. *The New York Times Book Review* and rich in details and alive with interesting and sometimes incredible people. *Los Angeles Times*. Now in *Material Dreams*, Starr turns to one of the most vibrant decades in the Golden State's history: the 1920s, when some two million Americans migrated to California, the vast majority settling in or around Los Angeles. In a lively and eminently readable narrative, Starr reveals how Los Angeles arose almost defiantly on a site lacking many of the advantages required for urban development, creating itself out of sheer will, the Great Gatsby of American cities. He describes how William Ellsworth Smyth, the Peter the Hermit of the Irrigation Crusade, the self-educated Irish engineer

William Mulholland who built the main aqueducts to Los Angeles and George Chaffey who diverted the Colorado River transforming desert into the lush Imperial Valley brought life supporting water to the arid South. He examines the discovery of oil, the boosters and land developers, the evangelists such as Bob Shuler, the Methodist Savanarola of Los Angeles and Aimee Semple McPherson and countless other colorful figures of the period. There are also fascinating sections on the city's architecture, the impact of the automobile on city planning, the Hollywood film community, the L.A. literati and much more. By the end of the decade, Los Angeles had tripled in population and become the fifth largest city in the nation. In *Material Dreams*, Starr captures this explosive growth in a narrative tour de force that combines wide-ranging scholarship with captivating prose.

Opening up this cosmic energy is not as difficult as you may think, yet is a metaphysical exploration that is more satisfying, loving, and empowering than anything you could imagine.

Redemptive Dreams Jason S. Sexton, 2023-11-10 An essential piece in California Studies. *Redemptive Dreams* Engaging Kevin Starr's California offers the first critical engagement with the vision of California's most ambitious interpreter. While Starr's multifaceted and polymathic vision of California offered a unique gaze synthesizing central features, big themes, and incredible problems with the propitious golden dream, his eight-volume California Dream series, along with several other books and thousands of published articles and essays, often puzzled historians and other scholars. Historians in the contemporary school of critical historiography often found Starr's narrative approach seeking to tell the internal drama of the California story to be less attuned to the most important work happening in the field. Such a perspective fails to acknowledge key developments in historical subfields like Black and African American Studies, Chicana/o x Studies, Asian Studies, Native Studies, and others that draw from the narrative in their critical work and how this relates to Starr's contribution. But it also neglects Starr as a theological interpreter. Along with being a major figure in California institutional life with literary output spanning genres from journalism to critical cultural and political commentary to history and memoir, Starr's unique contribution to California Studies as a distinctly Catholic historian has yet to be adequately understood. Through his lived experience as a devout Catholic, to the particular theological features of this faith tradition that animated his views, this critical sociological perspective sheds new light on his project. With contributions from sociology, history, and theology, akin to investigations appearing in *Theology* and *California Theological Refractions* on California's Culture, Routledge *Redemptive Dreams* offers interdisciplinary perspectives that highlight key features inherent in interdisciplinary theological reflection on place and

illuminates these diverse disciplinary discourses as they appear in Starr's articulation of the California Dream. Such a vision remains important for reckoning with California's place in the world. **A Monograph on Sleep and Dream** Edward William Cox, 1878 **Dream Cities** Wade Graham, 2016-05-15 The ideas that became the blueprints for the world we live in

The Politics of Imprisonment Vanessa Barker, 2009-08-26 The attention devoted to the unprecedented levels of imprisonment in the United States obscures an obvious but understudied aspect of criminal justice: there is no consistent punishment policy across the U.S. It is up to individual states to administer their criminal justice systems, and the differences among them are vast. For example, while some states enforce mandatory minimum sentencing, some even implementing harsh and degrading practices, others rely on community sanctions. What accounts for these differences? *The Politics of Imprisonment* seeks to document and explain variation in American penal sanctioning, drawing out the larger lessons for America's overreliance on imprisonment. Grounding her study in a comparison of how California, Washington, and New York each developed distinctive penal regimes in the late 1960s and early 1970s, a critical period in the history of crime control policy and a time of unsettling social change, Vanessa Barker concretely demonstrates that subtle but crucial differences in political institutions, democratic traditions, and social trust shape the way American states punish offenders. Barker argues that the apparent link between public participation, punitiveness, and harsh justice is not universal but dependent upon the varying institutional contexts and patterns of civic engagement within the U.S. and across liberal democracies. A bracing examination of the relationship between punishment and democracy, *The Politics of Imprisonment* not only suggests that increased public participation in the political process can support and sustain less coercive penal regimes but also warns that it is precisely a lack of civic engagement that may underpin mass incarceration in the United States. **Down to Earth**

Theodore Steinberg, 2002-05-09 From the Pilgrims to Disney World, Steinberg offers a bold and exciting new way to understand American history through the lens of nature. 65 halftones, 5 maps. *California Exposures: Envisioning Myth and History* Richard White, 2020-03-17 Winner of the 2021 California Book Award, Californiana category. A brilliant California history in word and image from an award-winning historian and a documentary photographer. This is the West, sir. When the legend becomes fact, print the legend. This indelible quote from *The Man Who Shot Liberty Valance* applies especially well to California, where legend has so thoroughly become fact that it is visible in everyday landscapes. Our foremost historian of the West, Richard White, never content to print the legend, collaborates here with his son, a talented photographer, in excavating the layers of legend built into California's landscapes. Together, they expose the bedrock of the past and the history they uncover is astonishing. Jesse White's evocative photographs illustrate the sites of Richard's historical investigations. A vista of Drake's Estero conjures the darkly amusing story of the Drake Navigators Guild and its dubious efforts to establish an Anglo-Saxon heritage for California. The restored Spanish missions of Los Angeles frame another origin story in which California's native inhabitants civilized through contact with friars gift their territories to white settlers. But the history is not so placid. A

quiet riverside park in the Tulare Lake Basin belies scenes of horror from when settlers in the 1850s transformed native homelands into American property Near the lake bed stands a small marker commemorating the Mussel Slough massacre the culmination of a violent struggle over land titles between local farmers and the Southern Pacific Railroad in the 1870s Tulare is today a fertile agricultural county but its population is poor and unhealthy The California Dream lives elsewhere The lake itself disappeared when tributary rivers were rerouted to deliver government subsidized water to big agriculture and cities But climate change ensures that it will be back the only question is when

economy In admiration of the Arabian Nights people creatively reenacted Eastern life but these performances were also demonstrations of Americans own identities Nance argues The story of Aladdin made suddenly rich by rubbing an old lamp stood as a particularly apt metaphor for how consumer capitalism might benefit each person The leisure abundance and contentment that many imagined were typical of Eastern life were the same characteristics used to define the American dream The recent success of Disney s Aladdin movies suggests that many Americans still welcome an interpretation of the East as a site of incredible riches romance and happy endings This abundantly illustrated account is the first by a historian to explain why and how so many Americans sought out such cultural engagement with the Eastern world long before geopolitical concerns became paramount Good Literature ,1883
