

The Declaration of Independence Answer Key

Directions: Read the Declaration of Independence as well as characteristics of Rationalism and answer each of the following questions in complete sentences.

1. What does Jefferson explain in the first paragraph of the Declaration of Independence?

Jefferson explains that it is time that colonies separate themselves politically from their mother country (England) because its ruler has deprived them of God-given rights.

2. What truths does Jefferson consider to be self-evident? Be specific. Why were Jefferson's words a paradox?

Jefferson writes that "all men are created equal and are endowed by our creator with inalienable rights."

The statement is a paradox because not all colonies are free, and, in fact, Jefferson owns slaves.

3. What is the definition of inalienable rights? What does Jefferson explain are inalienable rights?

Inalienable rights are rights that are absolute, unchallengeable, or undefeatable. They are rights that are assumed or promised.

Jefferson explains that inalienable rights are those of "life, liberty, and the pursuit of happiness."

4. According to this document, when is it okay to rebel against a government?

It is okay to rebel against a government when its leaders don't protect natural rights that are guaranteed to its citizens.

5. List any five reasons why Jefferson wants to break from Great Britain.

a. The King is ruling us without consent.

d. There is no proper trial by jury.

b. The laws are not made for the public good.

e. The King has blocked Western expansion.

c. Soldiers are put in colonies "without their consent."
