Kallocain By Karin Boye:

Kallocain Karin Boye, 2002 This classic Swedish novel envisioned a future of drab terror Seen through the eyes of idealistic scientist Leo Kall Kallocain's depiction of a totalitarian world state is a montage of what novelist Karin Boye had seen or sensed in 1930s Russia and Germany Its central idea grew from the rumors of truth drugs that ensured the subservience of every citizen to the state *Kallocain* Karin Boye, 2019-11-28 A pioneering work of dystopian fiction from one of Sweden's most acclaimed writers Written midway between *Brave New World* and *Nineteen Eighty Four* as the terrible events of the Second World War were unfolding Kallocain depicts a totalitarian World State which seeks to crush the individual entirely In this desolate paranoid landscape of police eyes and police ears the obedient citizen and middle ranking scientist Leo Kall discovers a drug that will force anyone who takes it to tell the truth But can private thought really be obliterated Karin Boye's chilling novel of creeping alienation shows the dangers of acquiescence and the power of resistance no matter how futile Translated with an introduction by David McDuff *Kallocain* Karin Boye, 2019-12-31 A pioneering work of dystopian fiction from one of Sweden's most acclaimed writers Written midway between *Brave New World* and *Nineteen Eighty Four* as the terrible events of the Second World War were unfolding Kallocain depicts a totalitarian World State which seeks to crush the individual entirely In this desolate paranoid landscape of police eyes and police ears the obedient citizen and middle ranking scientist Leo Kall discovers a drug that will force anyone who takes it to tell the truth But can private thought really be obliterated Karin Boye's chilling novel of creeping alienation shows the dangers of acquiescence and the power of resistance no matter how futile Translated with an introduction by David McDuff **Swedish Women's Writing 1850-1995** Helena Forsas-Scott, 2000-12-01 Provides a survey of women's writing in Sweden from the beginnings of the struggle for emancipation in the 1850s to the present day These writers are seen within the political cultural and economic context of women's lives Modern critical currents are also assessed and Swedish feminist criticism is considered alongside the French and American traditions *Literature, Science, Psychoanalysis, 1830-1970* Helen Small, Trudi Tate, 2003 The interactions between literature and science and between literature and psychoanalysis have been among the most thriving areas for interdisciplinary study in recent years Work in these open fields has taught us to recognize the interdependence of different cultures of knowledge and experience revealing the multiple ways in which science literature and psychoanalysis have been mutually enabling and defining as well as corrective and contestatory of each other Inspired by Gillian Beer's path breaking work on literature and science this volume presents fourteen new essays by leading American and British writers They focus on the evolutionary sciences in the nineteenth century the early years of psychoanalysis from Freud to Ella Freeman Sharpe and the modern development of the physical sciences Drawing on recent debates within the history of science psychoanalytic literary criticism intellectual history and gender studies the volume makes a major contribution to our understanding of the formation of knowledge Among its recurrent themes are curiosity

and epistemology growth maturity and coming of age as structuring metaphors several essays focus especially on childhood taxonomy sleep and dreaming and elusive knowledge the physiology of truth and the gender politics of scientific theory and practice The essays also reflect Beer's extensive influence as a literary critic with close readings of works by Charlotte Brontë Alfred Lord Tennyson George Eliot Thomas Hardy Henry James Oscar Wilde H G Wells Edith Ayrton Zangwill Charlotte Haldane Virginia Woolf George Orwell and Karin Boye

Out of This World Rachel S. Cordasco, 2021-12-28 The twenty first century has witnessed an explosion of speculative fiction in translation SFT Rachel Cordasco examines speculative fiction published in English translation since 1960 ranging from Soviet era fiction to the Arabic language dystopias that emerged following the Iraq War Individual chapters on SFT from Korean Czech Finnish and eleven other source languages feature an introduction by an expert in the language's speculative fiction tradition and its present day output Cordasco then breaks down each chapter by subgenre including science fiction fantasy and horror to guide readers toward the kinds of works that most interest them Her discussion of available SFT stands alongside an analysis of how various subgenres emerged and developed in a given language She also examines the reasons a given subgenre has been translated into English An informative and one of a kind guide *Out of This World* offers readers and scholars alike a tour of speculative fiction's new globalized era

Nordic Utopias and Dystopias Pia Maria Ahlbäck, Jouni Teittinen, Maria Lassén-Seger, 2022-11-24 The Nordic countries have long been subject to certain idealised even utopian imaginaries particularly with regard to images of pristine nature and the societal ideals of democracy equality and education On the other hand such projections inevitably invite dissent irony and intimations of the utopia's dark underside Things may yet take or may have already taken a dystopic course The present volume offers twelve contributions on utopias and dystopias in Nordic literature and culture Geographically the articles cover the Nordic countries of Denmark Finland Norway and Sweden as well as the autonomous area of Greenland Through the articles varied subjects ranging from avant garde literature and long poems to noir TV series young adult fiction popular historiography and political discourse in literature outside of Norden the volume brings forth a historically rich multi layered picture of social cultural and environmental imagination in the Nordic countries *Nordic Utopias and Dystopias* is thus of interest not only to specialists in dystopian and utopian research but more broadly to scholars of literature and culture and the political and social sciences especially but not exclusively in the Nordic context **289**

The History of Science Fiction: A Graphic Novel Adventure Xavier Dollo, Djibril Morissette-Phan, 2021-11-23 Journey through time and space with this graphic novel history of the science fiction genre

Modern Dystopian Fiction and Political Thought Adam Stock, 2018-10-26 Over the past few years dystopia has become a word with increasing cultural currency This volume argues that we live in dystopian times and more specifically that a genre of fiction called dystopia has above others achieved symbolic cultural value in representing fears and anxieties about the future As such dystopian fictions do not merely mirror what is happening in the world in becoming such a ready referent for discussions about such varied topics as governance popular culture security structural discrimination environmental disasters and beyond the narrative conventions and generic tropes of dystopian fiction affect the ways in which we grapple with contemporary political problems economic anxieties and social fears The volume addresses the development of the narrative methods and generic conventions of dystopian fiction as a mode of socio political critique across the first half of the twentieth century It examines how a series of texts from an age of political extremes contributed to political discourse and rhetoric both in its contemporary setting and in the terms in which we increasingly cast our cultural anxieties Focusing on interactions between temporality spatiality and narrative the analysis unpicks how the dystopian interacts with social and political events debates and ideas Stock evaluates modern dystopian fiction as a historically responsive mode of political literature He argues that amid the terrors and upheavals of the first half of the twentieth century dystopian fiction provided a unique space for writers to engage with historical and contemporary political thought in a mode that had popular cultural appeal Combining literary analysis informed by critical theory and the history of political thought with archival based historical research this volume works to shed new light on the intersection of popular culture and world politics It will be of interest to students and scholars in literary studies cultural and intellectual history politics and international relations

Utopian Fantasy Richard Gerber, 2019-11-21 This book originally published in 1955 and reissued in 1973 is a study of the flourishing of an ancient literary form which had only recently been recognized and systematically studied as a proper genre utopian fiction Beginning with the imaginary journeys of writers like H G Wells at the end of the nineteenth century Professor Gerber traces the evolving themes and forms of the genre through their culmination in the sophisticated nightmares of Aldous Huxley and George Orwell It is a two fold transformation On the one hand the optimism of social reformers whose visions of the future were nurtured by the theories of Darwin and the triumph of science and industry gradually gives way to the pessimism of moral philosophers alarmed at the power science and technology have put at the disposal of totalitarian rulers On the other hand the earlier writers dependence on framing and distancing devices for their stories and heavy emphasis on technical details give way to the subtlety of complex psychological

novels whose artistry makes the reader a citizen of the tragic worlds depicted *Afterlives* Camilla Storskog, 2023-10-31 In *Afterlives* the literary scholar Camilla Storskog investigates how classics with Scandinavian origin have been reinterpreted as comics She sets out how literary works plays and films have crossed and recrossed the boundaries of language and media speaking to new times and new contexts Comic art adaptations have long been neglected by academics so in this book the author considers them as unique visual media with their own aesthetic technical and narrative qualities "*The Space of Words*" Jennifer Miller Hoyer, 2014 Nelly Sachs 1891 1970 has long been regarded as one of the most significant Holocaust poets Her conception of language and words as a landscape has been understood by scholars and critics as an exilic ersatz Heimat for the lost German homeland of a displaced poet This reading however is based entirely on her postwar poems Such an isolated approach to her complex body of work is increasingly historically problematic it is also at odds with Sachs s generally cyclical poetic process In *The Space of Words* Jennifer Hoyer offers the first sustained critical analysis of Sachs s largely unanalyzed prewar poetry and prose as well as the first analysis that examines structural and thematic ties between the prewar works and the Nobel Prize winning postwar poetry Through close readings of both Sachs s prewar and postwar works Hoyer reveals a diasporic rather than exilic conception of the landscape of language a position of constant wandering rather than static longing for return This diasporic poetics promotes the intellectual and linguistic power of the wanderer and opens new insights into Sachs s essential significance as a Holocaust poet and a twentieth century German Jewish writer wary of the link of literary language to geopolitics and the narrative of nations Jennifer M Hoyer is Assistant Professor of German at the University of Arkansas **After the Great Divide** Andreas Huyssen, 1986 One of the most comprehensive and intelligent postmodern critics of art and literature Huyssen collects here a series of his essays on pomo Village Voice Literary Supplement his work remains alert to the problematic relationship obtaining between marxisms and poststructuralisms American Literary History challenging and astute World Literature Today Huyssen s level headed account of this controversial constellation of critical voices brings welcome clarification to today s murky haze of cultural discussion and proves definitively that commentary from the tradition of the German Left has an indispensable role to play in contemporary criticism The German Quarterly we will certainly have after reading this book a deeper understanding of the forces that have led up to the present and of the possibilities still open to us Critical Texts a rich multifaceted study The Year s Work in English Studies Huyssen argues that postmodernism cannot be regarded as a radical break with the past as it is deeply indebted to that other trend within the culture of modernity the historical avant garde **Complete Poems** Karin Boye, 1994 Karin Boye is Sweden s greatest woman poet Born in 1900 she was a poet of ideas and wrote a powerful prophetic novel *Kallocain* Her involvement in the radical literary and artistic movement Clart during the 1920s led to her interest in psychoanalysis which influenced her literary work as well as her personal development during the latter years of her life Intellectually and emotionally she was far ahead of her time and her controversial writings included the novel *Crisis* in which

she depicted the religious turmoil of her adolescence and her discovery of her own bisexuality David McDuff's edition shows Karin Boye moving from youthful idealism to a desperate quest In the early poems she is a tense modern spirit aroused to strenuous affirmations of absolute ethical loyalties but prone also to drift passively back into regions of the subconscious and the unconscious where mysterious natural forces take possession of the human spirit Her identification with nature's dark but knowing and fertile instincts becomes more complete in her later work in which serene nature symbolism is mixed with ominously strained elements Margaret Abenius's biography of Karin Boye is called *Afflicted by Purity* a line from one of her poems Her title captures the inner conflict at the heart of Karin Boye's poetry and the way she rose above shattering personal defeats to write with honesty clarity of vision and nobility of utterance Her poetry has a strenuously angular quality which reflects with naked candour the harsh realities of her tragic inner struggle which was eventually to lead to her suicide in 1941 Karin Boye is one of the trio of great Scandinavian women poets along with Edith Södergran and Mirjam Tuominen all three published in English by Bloodaxe Books

Historical Dictionary of Utopianism Toby Widdicombe, James M. Morris, Andrea Kross, 2017-06-21 Utopian thinking embraces fictional descriptions of how to create a better but not a perfect alternative way of life as well as intentional communities that is groups of people leading lives in small communities for their own betterment and the betterment of others The first edition almost exclusively dealt with the intentional community side of utopianism this second edition offers a much more inclusive definition of the key term utopia by offering a great many entries devoted to describing fictional or literary utopian works It is also heavily illustrated with plates from utopian works especially those from the heyday of utopianism in the late nineteenth century This second edition of *Historical Dictionary of Utopianism* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1000 cross referenced entries on broad conceptual entries narrower entries about specific works and narrower entries about specific intentional communities or movements This book is an excellent resource for students researchers and anyone wanting to know more about Utopianism

Pervasive Computing Design for Sustainability Håkan Gulliksson, This book contains the knowledge an interaction designer should know about pervasive design for sustainability Relevant design research is discussed and framed in a story and value based participatory approach Sustainability is the

most important design goal This is the first message A second message is that information technologies and in particular pervasive computing are invaluable keys in the quest for sustainability Thirdly there is a lack of knowledge on sustainability issues in the interaction design community In this book a unique meta level framework structures an extensive discussion of design for sustainability The framework is based on a principle of justice that is complemented by circumstances for sustainability chosen from the perspective of interaction design We suggest and present the following circumstances limited shared resources socio technical components and structures technology development vision and reflection cognitive and behavioural support joint ventures and political action Topics discussed within the circumstances include experience design ethics Latours s modes of existence design fiction computer games futures studies theories for reflection and behavioural change personal informatics and practice theory The convolute concludes with a number of case studies where interaction design research is summarized and studied from the perspective of sustainability We start out with thoughts on sustainable consumption sustainable character and the sustainable family that gets a section each Adding to them are annotated case studies from research on design fiction game and performance value based design practice theory multi level perspective design and design for a sustainable society The book is a polyphonic convolute which means that there will be some overlap in the reports from the different discourses Development in the areas related to interaction design can be sensed by identifying the surfacing themes In total the e book consists of the equivalence of 530 pages excluding references and index H kan Gulliksson is a lecturer on Interaction technology and Sustainable design at Ume University for more than ten years

Visual Representations of the Arctic Markku Lehtimäki, Arja Rosenholm, Vlad Strukov, 2021-03-31 Privileging the visual as the main method of communication and meaning making this book responds critically to the worldwide discussion about the Arctic and the North addressing the interrelated issues of climate change ethics and geopolitics A multi disciplinary multi modal exploration of the Arctic it supplies an original conceptualization of the Arctic as a visual world encompassing an array of representations imaginings and constructions By examining a broad range of visual forms media and forms such as art film graphic novels maps media and photography the book advances current debates about visual culture The book enriches contemporary theories of the visual taking the Arctic as a spatial entity and also as a mode of exploring contemporary and historical visual practices including imaginary constructions of the North Original contributions include case studies from all the countries along the Arctic shore with Russian material occupying a large section due to the country s impact on the region
