Choices: Investigating Parts of Speech, p. 1

Choices activities are designed to extend and enrich students' understanding of grammar, usage, and mechanics and to take learners beyond traditional classroom instruction. To use the Choices worksheet, have each student pick an activity that interests him or her. In some cases, you may wish to assign an activity to a particular student or group of students. You may also want to request that students get your approval for the activities they choose. Establish guidelines for what constitutes successful completion of an activity. Then, help students plan how they will share their work with the rest of the class.

Choices activities can be scored with a pass-fail grade or treated as bonus-point projects. Those activities that require students to research or create a certain number of items might be graded in a traditional manner.
