ANALYTICAL FRAMEWORK AND APPLICATION  
TO INDONESIA

# Managing Food Insecurity Risk Application

**Franck Marle, Ludovic-Alexandre Vidal**

## **Managing Food Insecurity Risk Application:**

Managing Food Insecurity Risk Analytical Framework and Application to Indonesia OECD,2015-06-01 This publication develops a risk management tool to examine the robustness of policy responses to managing risks and uncertainty across a variety of different threats to food security and applies the framework to an Indonesia case study **Managing Food**

**Insecurity Risk: Analytical Framework and Application to Indonesia** Oecd,2015-06-01 Many of the recent concerns about food security relate to perceived threats to current levels of food security such as those due to price shocks or natural disasters These threats concern the risk of food insecurity This publication develops a risk management tool to examine the robustness of policy responses to managing risks and uncertainty across a variety of different threats to food security and applies the framework to an Indonesia case study Five risk scenarios were selected as major threats to food security in Indonesia following a consultation process among stakeholders and policy makers and assessed in terms of existing and alternative agricultural and social policies The risk assessment shows that domestic economic and natural disaster scenarios are more important than global price hikes and that a policy strategy that concentrates on addressing a single source of risk such as a price spike in international markets may increase vulnerability to other sources of risk such as domestic crop failure The analysis yields a number of specific policy recommendations including targeting of social assistance programme using food vouchers or cash transfers **Building Food Security and Managing Risk in Southeast Asia**

OECD,2017-05-03 This report explores effective policy solutions to the current and future challenges related to food security in the countries of the Association of Southeast Asian Nations ASEAN While robust GDP growth rising agricultural productivity and output and strong growth in agricultural incomes **Blockchain Applications in Food Supply Chain**

**Management** Chen Zhang,Yu Gong,Steve Brown,2023-03-31 This book contributes to blockchain applications in food supply chain management from both theoretical and practical perspectives By using the case study research method it empirically investigates why and how food companies implement blockchain technology Moreover it proposes a conceptual framework based on the case findings and extant literature The book provides empirical evidence to verify academic findings such as critical success factors and barriers Furthermore it identifies the implementation process to answer the how question Uniquely it applies the innovation process model and the practice based view PBV to studies on food supply chains and blockchain Thus building on the original model and theory it enriches the theory on blockchain implementation making it a valuable asset for all researchers and practitioners interested in blockchain adoption and food supply chain management

*Food Security and Nutrition Challenges for Agriculture and the Hidden Potential of Soil* OECD,Food and Agriculture Organization of the United Nations,2018-10-20 This report prepared by FAO and the OECD with inputs from IFPRI IFAD the World Bank and WTO has been submitted to the G20 Presidency of the Argentine Republic in response to the Presidency s request for information on future trends and challenges faced by global agriculture with a special **Food safety risk**

**management: Evidence-informed policies and decisions, considering multiple factors** Food and Agriculture Organization of the United Nations,2018-06-15 These FAO guidance materials were developed to support food safety risk managers and policy makers in applying structured evidence informed processes to decision making Food safety issues can have widespread impacts beyond public health They may contribute to or detract from the achievement of goals in areas including nutrition food security food trade and market access economic and rural development The risk analysis paradigm guides risk managers to ensure their decisions are based on an assessment of risks to health and consideration of other factors in choosing the preferred risk management decision The materials assist decision makers in applying a multi factor approach and is applied to two key decision areas setting food safety priorities and selecting risk management options The principles and approaches can be applied to all food safety decisions Case studies are included as examples of how to apply this decision making process Using this guidance will lead to improved food safety decisions where decision makers can demonstrate how evidence was used and any trade offs made It also facilitates stakeholder engagement transparency and accountability throughout the decision making process

**OECD Food and Agricultural Reviews Agricultural Policies in India** OECD,Indian Council for Research on International Economic Relations,2018-07-05 This report assesses the performance of agricultural and food policy in India and calculates a set of policy indicators providing a comprehensive picture of agricultural support These indicators developed by the OECD are already used regularly in the analysis of the agriculture and food

**OECD Food and Agricultural Reviews Agricultural Policies in the Philippines** OECD,2017-04-07 This report analyses Philippine agricultural policy Agriculture provides 30% of total employment in the Philippines and represents 11% of its Gross Domestic Product The Philippines has had notable recent overall economic success yet improving agricultural performance remains challenging

**Agricultural Policy Monitoring and Evaluation 2015** OECD,2015-08-14 This annual publication provides information on policy developments and related support to agriculture in OECD countries and selected partner economies measured with the OECD Producer Support Estimate methodology

**Science, Engineering Management and Information Technology** A. Mirzazadeh,Zohreh Molamohamadi,Babek Erdebilli,Erfan Babaei Tirkolaee,Gerhard-Wilhelm Weber,2025-08-21 The two volume set CCIS 2651 2652 constitutes the proceedings of the 5th International Conference on Science Engineering Management and Information Technology SEMIT 2025 held in Dubai UAE during September 11 13 2025 The 35 full papers and 4 short papers included in the proceedings were carefully reviewed and selected from 221 submissions They were organized in topical sections as follows AI in Public Services Educational Technology Smart Manufacturing Smart Cities Digital Governance Sustainable and Computational Intelligence and Data Privacy in Healthcare IT and Public Services

**Managing Risk in Agriculture** Ashok K. Mishra,Subal C. Kumbhakar,Gudbrand Lien,2023-10-02 The book addresses and documents farmers risks in developing and emerging economies It draws lessons from experimental economics on measuring risk preferences attitudes gender differences in

managing risks and risk management strategies in countries across Africa and Asia It argues policy makers especially in emerging economies need a better understanding of farmers attitudes toward risk and choices of risk management strategies when designing policies to support production agriculture The book includes chapters on three themes understanding risk attitudes and preferences using experimental economics to measure risk preferences and risk management strategies and understanding climate change risk and risk management The book critically examines the currently held beliefs about risk preference attitudes and empirical estimation of risk management strategies emphasizing developing and emerging economies DEE This book is ideal for students and researchers in universities and research organizations who conduct applied research on public policy community development and rural development and will also be of interest to policy makers in those fields

**Agricultural Policy Monitoring and Evaluation 2020** OECD,2020-06-30 This annual report monitors and evaluates agricultural policies spanning all six continents including the 36 OECD countries the five non OECD EU Member States and 13 emerging economies

Managing Complex, High Risk Projects Franck Marle,Ludovic-Alexandre Vidal,2015-12-18 Maximizing reader insights into project management and handling complexity driven risks this book explores propagation effects non linear consequences loops and the emergence of positive properties that may occur over the course of a project This book presents an introduction to project management and analysis of traditional project management approaches and their limits regarding complexity It also includes overviews of recent research works about project complexity modelling and management as well as project complexity driven issues Moreover the authors propose their own new approaches new methodologies and new tools which may be used by project managers and or researchers and or students in the management of their projects These new elements include project complexity definitions and frameworks multi criteria approaches for project complexity measurement advanced methodologies for project management propagation studies to anticipate potential behaviour of the project and clustering approaches to improve coordination between project actors and industrial case studies automotive industry civil engineering railroad industry performing arts and exercises with their solutions which will allow readers to improve and strengthen their knowledge and skills in the management of complex and thus risky projects
