Teaching Literacy in Troubled Times Allison Skerrett, Peter Smagorinsky, 2022-07-18. Upending deficit narrative of learning loss, combating broken approaches to racial equity, and wading deep into the contested waters of democratic principles of learning within today's schools. Dr. Skerrett and Dr. Smagorinsky offer an accessible guidebook for making our classrooms sites of justice and joy. Perhaps most importantly, theirs is a book that reveals classroom practices as they really are: the voices of teachers are situated as co-authors in this important journey. I cannot think of a more timely or relevant book for English educators than *Teaching Literacy in Troubled Times*. Antero Garcia, Ph.D., Associate Professor, Graduate School of Education, Stanford University. Relevant instruction to move education forward instead of back to normal. Educators often bemoan the so-called learning gap that followed the upheaval to schooling in 2020, but the real learning gap will occur if the watershed events and social shifts of the early 2020s are not integrated into school instruction and learning. For today's learning to be relevant to today's students, it must reflect their lives and the true social worlds they inhabit. But how? *Teaching Literacy in Troubled Times* empowers educators to engage students in critical thinking, literacy activities, and inquiry to investigate the personal and social issues of pressing importance to today's middle and high school students. Six units of study, each co-authored by a teacher who road-tested the activities in their own classroom, guide teachers through the process of teaching literacy around the topics of identity, social inequity, global justice, empathy, racism, and racial literacy, and conflicting ideas of patriotism. This urgent, timely guide to creating a relevant classroom includes instructional methods, content knowledge, and learning activities for each unit that engage students in critical inquiry and social action. Insights and guidance from teachers who put the full unit plans in action with students. Reflection questions to help teachers envision the work in their own classrooms. Templates, rubrics, examples of student work, and other tools that help teachers to plan and implement activities that grow students' capacity to understand and act in society. Prime your students with the critical

Living on One Day's Rations Douglas B. Bailey, 2001 In eleven thought provoking sermons based upon texts from Genesis and Exodus Douglas Bailey highlights events from the lives of Jacob his son Joseph and Moses But these messages are more than simple biblical exegesis drawing on insights from scholarly research Bailey demonstrates that the spiritual struggles and faith of Jacob Joseph and Moses are very pertinent to vital issues we face in our lives today For example Jacob s growing pains make us wonder What prizes are worth working for and Why does God pick a fight with us and challenge us to a wrestling match Similarly the story of Joseph leads us to ask why genuine forgiveness is truly painful And sermons reviewing major episodes in the life of Moses raise such questions as Can we really trust God to come through when the chips are down and Can an affluent society ever accept God s limited offer of one day s blessings one day at a time Bailey mines the texts for answers to these timely questions proving that the ancient texts are still very relevant An ordained minister in the United Church of Christ Douglas B Bailey is a graduate of the University of Michigan B A Yale Divinity School B D S T M and the University of Wisconsin Ph D In addition to serving pastorates in Vermont Maine Massachusetts and Wisconsin Bailey spent over twenty years in administration for Franklin County Children s Services in Columbus Ohio Bailey contributed to the 1998 Daily Book of Prayer published by United Church Press and continues to serve as a supply pastor for vacationing clergy He is also an active member of the United Christian Center ecumenical campus ministry board at Ohio State University
