Crompton, John Traxler, 2015-02-11 *Mobile Learning and Mathematics* provides an overview of current research on how mobile devices are supporting mathematics educators in classrooms across the globe Through nine case studies chapter authors investigate the use of mobile technologies over a range of grade levels and mathematical topics while connecting chapters provide a strong foundational background in mobile learning theories instructional design and learner support For current educators *Mobile Learning and Mathematics* provides concrete ideas and strategies for integrating mobile learning into their mathematics instruction for example by sharing resources that will help implement Common Core State Standards or by streamlining the process of selecting from the competing and often confusing technology options currently available A cutting edge research volume this collection also provides a springboard for educational researchers to conduct further study

From Thomas to Train Conductor Suzanne Jacobsen, 2013-07 In 2010 Kirin Jacobsen walks across the auditorium stage to receive his Bachelor s Degree For his parents Suzanne and John Jacobsen this moment is more than a milestone it is a celebration of Kirin s courage to overcome enormous obstacles Follow the Jacobsen family as Kirin grows from a boy who passionately loves Thomas the Tank Engine into a wise and wonderful young man who becomes a train conductor The Jacobsen family faces many challenges with medical professionals and educators demonstrating the extent of the advocacy required to support Kirin into adulthood Individuals with developmental differences and their families are constantly faced with ignorance complacency disrespect and misunderstanding The Jacobsens story is shared to encourage parents to advocate for their loved ones and inspire changes that will make a difference in the lives of these individuals [Budget of the United States Government](#) United States. Office of Management and Budget, 2014 [The Most Important Year](#) Suzanne Bouffard, 2017-09-05 An eye opening look inside pre K in America and what it will take to give all children the best start in school possible At the heart of this groundbreaking book are two urgent questions What do our young children need in the

earliest years of school and how do we ensure that they all get it Cutting edge research has proven that early childhood education is crucial for all children to gain the academic and emotional skills they need to succeed later in life Children who attend quality pre K programs have a host of positive outcomes including better language literacy problem solving and math skills down the line and they have a leg up on what appears to be the most essential skill to develop at age four strong self control But even with this overwhelming evidence early childhood education is at a crossroads in America We know that children can and do benefit but we also know that too many of our littlest learners don t get that chance millions of parents can t find spots for their children or their preschoolers end up in poor quality programs With engrossing storytelling journalist Suzanne Bouffard takes us inside some of the country s best pre K classrooms to reveal the sometimes surprising ingredients that make them work and to understand why some programs are doing the opposite of what is best for children It also chronicles the stories of families and teachers from many backgrounds as they struggle to give their children a good start in school This book is a call to arms when we are at a crucial moment and perhaps on the verge of a missed opportunity We now have the means and the will to have universal pre kindergarten but we are also in grave danger of not getting it right
