Mathematics In A Postmodern Age A Christian Perspective:

Mathematics in a Postmodern Age Russell W. Howell, James Bradley, 2001 The discipline of mathematics has not been spared the sweeping critique of postmodernism Is mathematical theory true for all time or are mathematical constructs in fact fallible This fascinating book examines the tensions that have arisen between modern and postmodern views of mathematics explores alternative theories of mathematical truth explains why the issues are important and shows how a Christian perspective makes a difference Contributors W James Bradley William Dembski Russell W Howell Calvin Jongsma David Klanderman Christopher Menzel Glen VanBrummelen Scott VanderStoep Michael Veatch Paul Zwier *How Chinese Teach Mathematics: Perspectives From Insiders* Lianghuo Fan, Ngai-ying Wong, Jinfa Cai, Shiqi Li, 2015-03-13 This unique book represents another concerted research effort concerning Chinese mathematics education with contributions from the world's leading scholars and most active researchers The book presents the latest original research work with a particular focus on the teaching side of Chinese mathematics education to a wide international audience There are mainly three sections in the book The first section introduces readers to a historical and contemporary perspective respectively on traditional mathematical teaching in ancient China and on how modern Chinese mathematics teachers teach and pursue their pre service training and in service professional development The second section presents studies investigating a wide range of issues at both the macro and micro levels on how Chinese mathematics teachers teach mathematics The third section focuses on Chinese mathematics teachers investigating issues about their knowledge belief teacher training and professional development Like its predecessor *How Chinese Learn Mathematics Perspectives from Insiders* this book is a must for educational researchers practitioners and policy makers who are interested in knowing more about mathematics teaching teachers teacher education and professional development concerning Chinese teachers and learners **Christian Contours** Douglas S. Huffman, 2012-01-12 What does it mean to think and live Christianly in a world of competing worldviews *Christian Contours* answers this question by inviting readers to consider the understanding of reality proposed by the Bible Though it is easy to divide life into separate compartments religious and secular theological and practical faith invites us to view all of life in the light of that Biblical understanding Presenting a clear compelling case for unity in essential Christian tenets the authors of *Christian Contours* guide the reader through developing internalizing and articulating a biblical worldview This robust worldview enables the Christian to be a critically thinking participant in culture and to be a faithful disciple of Christ with both heart and mind **Faithful Learning and the Christian Scholarly Vocation** Douglas V. Henry, Bob R. Agee, 2003 Christian scholars and teachers everywhere are exploring ever more fully the relationship between Christian faith and the various academic disciplines In this book leading voices in the Christian academy provide a solid theological foundation for understanding the aims and practice of faith and learning integration especially within church related institutions and also discuss some major challenges and opportunities facing Christian higher education in the

Ideas at the Intersection of Mathematics, Philosophy, and

Theology Carlos R. Bovell,2012-09-17 How do mathematics philosophy and theology intersect In Ideas at the Intersection of Mathematics Philosophy and Theology Carlos Bovell proposes a wide range of possibilities In a series of eleven thought provoking essays the author explores such topics as the place of mathematics in the work of Husserl and Heidegger the importance of infinity for the Christian conception of God and the impact of G del s Theorem on the Westminster Confession of Faith This book will appeal to readers with backgrounds in mathematics philosophy and theology and can be used in core interdisciplinary modules that contain a math component Redeeming Mathematics Vern S. Poythress,2015-01-31 What

does Christianity have to do with the study of mathematics Prolific writer and scholar Vern Poythress offers a startling answer to this perplexing question everything This groundbreaking book argues that the harmony of abstract mathematical truths the physical world of things and the personal world of our thinking depends on the existence of the Christian God With advanced degrees in mathematics and New Testament studies Poythress shows that these distinct perspectives on mathematics cohere because all three find their origin in God s consistent character and nature Whether it s simple addition and subtraction or more complex mathematical concepts such as set theory and the nature of infinity this comprehensive book lays a theistic foundation for all mathematical inquiry A Critical Examination of the Doctrine of Revelation in

Evangelical Theology Carisa A. Ash,2015-07-14 How God reveals himself is an important matter for Christians especially evangelicals For too long Carisa Ash contends evangelicals have rightly affirmed that God reveals through the created world but then they functionally neglect such revelation In this monograph Ash offers a corrective to this practice by presenting a theology of revelation that explores the commonalities between various forms of revelation world written and spoken word and Incarnate Word Particularly aimed at theologians interested in theological method Ash s study will also benefit people interested in faith and learning or interdisciplinary integration Ash argues that evangelicals must strive to align more closely their affirmations and their practice Her critique of current practices in theological method and integration along with the proposed theology of revelation are designed to help move the conversation forward **Commandments from Heavenly**
