Disability Rights and Religious Liberty in Education Bruce J. Dierenfield, David A. Gerber, 2020-07-06 In 1988 Sandi and Larry Zobrest sued a suburban Tucson Arizona school district that had denied their hearing impaired son a taxpayer funded interpreter in his Roman Catholic high school The Catalina Foothills School District argued that providing a public resource for a private religious school created an unlawful crossover between

church and state The Zobrests however claimed that the district had infringed on both their First Amendment right to freedom of religion and the Individuals with Disabilities Education Act IDEA Bruce J Dierenfield and David A Gerber use the Zobrests story to examine the complex history and jurisprudence of disability accommodation and educational mainstreaming They look at the family s effort to acquire educational resources for their son starting in early childhood and the choices the Zobrests made to prepare him for life in the hearing world rather than the deaf community Dierenfield and Gerber also analyze the thorny church state issues and legal controversies that informed the case its journey to the U S Supreme Court and the impact of the high court s ruling on the course of disability accommodation and religious liberty

Competency-Based Education Rose L. Colby,2019-01-02 Competency Based Education introduces educators to a new model for anytime anywhere schooling and provides tools and curriculum resources for redesigning the traditional structures of K 12 schools Based on pioneering work across multiple states the book shows how educators can design central elements of competency based education including performance tasks personal learning plans and grading systems to meet the needs and interests of all students Rose L Colby provides critical tools for creating these elements in collaborative teams and engaging stakeholders such as educators parents and community members The book incorporates case studies and voices from the field and examines the variety of competency models that schools have adopted highlighting the benefits for students Competency Based Education provides a much needed resource at a time when states districts and schools are working to implement competency based models and experimenting with new accountability systems that include evidence of learning beyond standardized tests Appendix, Budget of the United States Government, Fy 2015 Executive Office Of The President,Office of Office of Management and Budget (U.S.),2014-04-15 Presents detailed information on individual programs and appropriation accounts that constitute the budget Includes for each Government department and agency the text of proposed appropriations language budget schedules for each account new legislative proposals and explanations of the work to be performed and the funds needed and proposed general provisions applicable to the appropriations of entire agencies or groups of agencies Breaking Barriers Stanley S. Litow,Tina Kelley,2021 With job opportunities in decline for youth with no postsecondary degree and college completion rates especially for students of color stagnating a high school diploma is no longer enough To solve this large scale global problem High school must be completely redesigned and reinvented providing all students real opportunity with both equity and excellence P TECH Pathways in Technology Early College High School has done just that by combining public high schools and community colleges in partnership with employers providing both opportunity and support for all students regardless of income race or any screen for admission Unlike many school models this innovative and effective approach has spread across the US and around the world eliminating barriers to replication by engaging all stakeholders The first P TECH opened in a low income Brooklyn neighborhood across from a public housing project and served 100% students of color It has become the model for school reform across over a dozen US states and

nearly twenty countries Praised by President Obama governors in red and blue states and heads of nations its story is told in this book through the personal stories of students who have destroyed the myths about which students can succeed Their stories demonstrate that all students if given the opportunity and support can reach great heights in high school college and career

The Legacy of J. William Fulbright Alessandro Brogi, Giles Scott-Smith, David J. Snyder, 2019-08-13 This insightful collection of essays details the political life of one of the most prominent and gifted American statesmen of the twentieth century From his early training in international law to his five terms in the US Senate J William Fulbright 1905 1995 had a profound influence on US foreign policy and his vision for mutual understanding shaped the extraordinary exchange program bearing his name As a senator for Arkansas for thirty years and the longest serving chair of the Senate Foreign Relations Committee Fulbright was one of the most influential figures of United States politics His criticism of US involvement in Vietnam exemplified his belief in the effective management of international norms by international organizations including the United Nations which was the subject of his first bill in Congress Yet alongside his commitments to liberal internationalism and multilateral governance Fulbright was a southern politician who embraced the interests of the region s conservative white population This juxtaposition of biased and broad minded objectives shows a divide at the center of Fulbright s vision which still has consequences for America s global policies today This multidimensional volume covers Fulbright s development as a national and global voice on foreign relations as he wrestled with the political controversies of the US South during the civil rights movement worked with and challenged executive power and shaped the Fulbright program for educational exchange

Discrimination based on Colour, Ethnic Origin, Language, Religion and Belief in Turkey's Education System Nurcan Kaya, 2015-10-27 The Turkish government is urged to make a fundamental shift in its approach to education by Minority Rights Group International MRG in a new report A long standing focus on state building has been supplemented by increasing emphasis on religious teaching Both feature strongly in the education system in Turkey making schools a focus of discrimination The report *Discrimination based on Colour Ethnic Origin Language Religion and Belief in Turkey s Education System* reveals evidence of discrimination of minority groups and suggests comprehensive reforms to effectively ensure equality The national education system which for decades aimed to create young Turkish nationalists has in recent years become a vehicle for raising young religious Turkish nationalists says Nurcan Kaya Turkey Coordinator of Minority Rights Group International Religious education is compulsory from grade four in primary schools While some information on world religions has been introduced the emphasis remains on teaching Sunni Muslim religious practices Children of Jewish and Christian families may apply to opt out but the process can be cumbersome and in many schools alternatives are not provided for them Non Muslim students who have opted out can still find themselves having to remain in the religious instruction class or alternatively having to wander in the school corridor making them vulnerable to taunts from pupils and even teachers The opt out possibility is still not available to children of other minorities Another issue

is mother tongue education In 2012 a new elective on the living languages and dialects in Turkey was introduced but due to various limitations minorities remain marginalised others in the education system Subsequent to the 2012 reform the report monitors discrimination in the formal education system in the period of the academic year of 2014 2015 The findings are based on the field work of the Monitoring Discrimination in Education Network an alliance of 16 organizations working in Turkey The report compiles numerous cases of discrimination based on language religion ethnicity skin colour and the level of income In order to bring about a fundamental solution to these problems in the education system the government must prioritise developing an approach that sees all groups as equal and that responds to demands for rights based on such an understanding of equality says Kaya The report highlights that Turkey has no anti discrimination law or an equality commission to which victims of discrimination can apply The existing legislation contains no effective and accessible means of judicial remedies or compensation Therefore many discriminatory practices are not reported to school administrations The entire education system is based on Turkishness Non Turkish groups are either not referred to or referred in a negative way says Kaya Education system has played a significant role in deepening conflict in society The positive representation of other groups in the education system would contribute to social peace and harmony In order to resolve the many problems in the education system that the current approach causes the overall aim of government education policy should be cleared of ideological references and the protection of children s best interests and the right to education in line with international standards should be considered its fundamental goal says the report

South African Schooling: The Enigma of Inequality Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning

outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI Kids Count New Jersey ... ,2016
