Emergency Response Guide S:

Emergency Response Guidebook 2012 U. S. Department U.S. Department of Transportation, 2015-04-17 The ERG is primarily applicable for hazardous materials transported by highway and railway but also is applicable for materials transported by air or waterway as well as by pipeline It was first issued by the US Department of Transportation in 1973 but later became a joint publication of the Department of Transportation US DOT Transport Canada TC and the Secretariat of Communications and Transportation SCT of Mexico with collaboration with the Chemistry Information Center for Emergencies CIQUIME of Argentina The ERG is issued every 4 years with editions now being published in Spanish Gu a de Respuesta en Caso de Emergencia In 1996 it was published as the North American Emergency Response Guidebook but by the next publication in 2000 North American was removed due to its use by several South American countries The ERG is primarily a guide to aid first responders in quickly identifying the specific or generic hazards of the material s involved in the incident and protecting themselves and the general public during the initial response phase of the incident and should only be used for the initial response phase about the first thirty minutes of an incident It is divided into six color coded sections white uncolored yellow blue orange green and a second white uncolored The ERG includes over 170 Guides found in the Orange Section that identify the primary hazards associated with the applicable general category of hazardous material and general guidance on how to respond to incidents involving that general category of hazardous material The primary purpose of ERG is to direct the emergency responders to the most appropriate of these guides based on the incident The ERG also provides guidance regarding recommended evacuation distances if applicable in the Green Section
