Information Systems, Management, Organization and Control Daniela Baglieri, Concetta Metallo, Cecilia Rossignoli, Mario Pezzillo Iacono, 2014-07-15. This book explores the diversity of topics, views and perspectives focused on the relationship between information systems, organizations and managerial control. It brings together theories and practices by a diverse group of scholars working in different disciplines: organization management, accounting, information systems, development, human computer interaction. The volume is divided into three sections each one focusing on a specific theme: organizational change, innovation and information and communication technologies, organizational control, accounting and information systems, information knowledge and project management practices. The book is based on a selection of the best research papers original double blind peer reviewed contributions of the annual conference of the Italian chapter of AIS held in Milan Italy in December 2013. **Designing Organizational Systems** Richard Baskerville, Marco De Marco, Paolo Spagnoletti, 2012-10-02. This book is dedicated to the memory of Professor Alessandro Sandro D'Atri who passed away in April 2011. Professor D'Atri started his career as a brilliant scholar interested in theoretical computer science, databases and more generally information processing systems. He journeyed far in various applications such as human computer interaction, human factors, ultimately arriving at business information systems and business organisation after more than 20 years of research based on problem solving. Professor D'Atri pursued the development of an interdisciplinary culture in which social sciences, systems design and human sciences are mutually integrated. Rather than retrospection, this book is aimed to advance in these directions and to stimulate a debate about the potential of design research in the field of information systems and organisation studies with an interdisciplinary approach. Each chapter has been selected by the Editorial Board following a double blind peer review process. The general criteria of privileging the variety of topics and the design science orientation and/or empirical works in which a design research approach is adopted to solve various field problems in the management area. In addition, several chapters contribute to the meta-discourse on design science research. *COOP 2016: Proceedings of the 12th International Conference on the Design of Cooperative Systems, 23-27 May 2016, Trento, Italy* Antonella De Angeli, Liam Bannon, Patrizia Marti, Silvia Bordin, 2016-09-07.
