Equip Leadership Notebooks:

Educational Leadership Patrick Duignan, 2007-01-22 Educational Leadership is a major research book on contemporary leadership challenges for educational leaders. In this groundbreaking new work, educational leaders in schools, including teachers, are provided with ways of analysing and resolving common but complex leadership challenges. Ethical tensions inherent in these challenges are identified, tools for their analysis are presented and explained, and clear and practitioner-focused guidelines for ethical decision making in the form of ten practical steps are recommended. Included in this discussion is a jargon-free description and explanation of ethical theories and principles. Written by a leading researcher in the field and recipient of the Australian Council for Educational Leadership Gold Medal for excellence, Educational Leadership: Key Challenges and Ethical Tensions is an important book that provides a practical framework for analysing ethical tensions and presenting, explaining, and applying ethical concepts and theories to real-life situations in practitioner language. **Global Leadership**

Marshall Goldsmith, Cathy Greenberg, Alastair Robertson, Maya Hu-Chan, 2003-04-28 The follow-up to Marshall Goldsmith's 500,000-copy bestseller *The Leader of the Future*, *Global Leadership: The Next Generation* systematically identifies what tomorrow's leaders will need to know, do, and believe in order to successfully lead the global enterprise of the future. Drawing on the results of an extraordinary 2-year Accenture study of emerging business leaders, this book shows why the skills of today's global leaders won't be enough and why tomorrow's leaders won't resemble today's. Goldsmith and his co-authors first identify five new factors of leadership and their implications: global thinking, appreciation of diversity, technological savvy, a willingness to partner, and an openness to sharing leadership. They explain what it will mean to lead in an era where intellectual capital is the dominant source of value, how to lead people whose backgrounds and values may be radically dissimilar from yours, and why achieving personal self-mastery is now a fundamental prerequisite for leading others. From the evolution of federated, semi-autonomous organizational structures to the personal leadership challenges now arising from globalism, this book offers unprecedented insights into the new challenges of leadership and what it will take to meet them.

Bulletproof Decisions Ruben Ugarte, 2021-12-15 We are told from a young age that we should strive to make the right decisions, but we aren't taught exactly how to do this. Every day we make over 35,000 decisions in our personal and professional lives. How many of those decisions do we get right? This book will help business executives systematically tackle these 35,000 decisions. Executives are forced to make critical decisions that impact their lives, their employees' lives, and the lives of their customers. Decisions like what products to create, who should be hired, and what divisions to shut down are all commonplace in the executive suite. This book offers three strategies for dealing with decisions: problem-solving techniques, routines, and decision-making frameworks. Each strategy is designed to help readers achieve more clarity, gain time back, and improve the quality of their decisions. The first one focuses on helping readers solve the right problem instead of wasting time on the wrong one. The second strategy helps deal with decisions that need to be made once but can then be executed.
