It is the most important English language abstracting journal in the mentioned branches. The abstracts are classified under more than hundred subject categories, thus permitting a quick survey of the whole extended material. The AAA is a valuable and important publication for all students and scientists working in the fields of astronomy and related sciences. As such it represents a necessary ingredient of any astronomical library all over the world. *Space Science Reviews* 1 Dividing the whole field plus related subjects into 108 categories, each work is numbered and most are accompanied by brief abstracts.
