GLOSSARY

to install – to place a new program on a computer so that it is ready to use
* Can you help me install this new anti-virus program?

operating system – the software that runs a computer, supporting all basic functions
* Are you familiar with the Apple operating system, or only Windows?

desktop – the main screen that one sees when turning on a computer, from which other programs can be selected and used
* Why are you saving all your documents on the desktop? Don't you know how to create folders?

menu bar – a list of available programs or options within a computer program from which one can select
* Where's the button on this menu bar for checking spelling?

application – a program that allows a computer to do something, especially on a smart phone
* With this new application, I can check into my flight and find out whether the flight has been delayed or canceled.

user interface – what a person sees and hears and where he or she has to click or touch to interact with a computer program
* The new user interface is so intuitive and simple that even a child can use it.

to revamp – to redo and improve in some way; to revise
* Let's revamp the old presentation to include new figures for this new potential client.

customized – designed, created, or changed to meet the needs of a particular person; with settings or features adapted to meet one person's preferences
* The company sells customized t-shirts, pencils, and coffee mugs with the purchaser's name.

setting – a speed, color, size, function, or some other feature that can be established and adjusted by the user to better meet his or her needs and preferences
* Can you help me change the language settings so that the program will check my spelling in German?
