

Animal Farm Revision Guide

Chapter I

After lights out, all the animals gather in the big barn to hear old Major communicate his strange dream of the previous night. Before doing so, he imparts his life learnings: that the existence of animals is one of toil and drudgery and that Man is the enemy; if animals are to ever achieve better lives then they must unite against Man. A vote is held to ascertain whether wild creatures such as rats should be considered comrades; though an overwhelming majority votes that they are, there are a few in opposition.

His dream was the remembrance

Power and Control

Power means to many things:

- political power and government;
- strength, resistance and physical prowess;
- knowledge and wisdom (power to the people).

Power is not in itself a bad thing, but with great power comes great responsibility... who might imagine who would have the right to exercise the control of power? And should it be? If only one, and simply, if Peder Pedersen's Uncle Ben had been the farmer there it might have been an entirely different story.

Orwell's primary concern is the abuse of power. Starting with his point, the deluged farmer regards those in the power and thereby makes himself... Even with his own mind, however, he is unable to take to heart the fact that he has more than most power (the fact that the animals are willing to risk their lives for the principles of Animalism). But this must be the turned into a functioning system of government and this brings us to the point of power and the control of the farm. All of power (theoretically) goes to them, but even within the pigs there is a hierarchy. Hence the growing tension between Snowball and Napoleon as two leaders and minds. Ultimately, Napoleon triumphs by taking the responsibility to the power. There is, however, no consideration of the power of the pigs and thought, making him even more powerful and controlling than the pigs and the fact that the only tragedy is that the idea of a dictatorship goes to the rest of the farm, the responsibility of having power at the same time that Napoleon is abusing it.

It is ironic that Napoleon gains absolute power, which has been the most obvious power.

Context

As we have already seen, Napoleon's rise to power mirrors that of Stalin, who stepped out of the shadow of more established powers such as Lenin (the first leader of the Soviet Union) and Khrushchev (the second in succession as the Soviet Premier of USSR). Stalin eliminated and replaced his opposition in a campaign of terror that culminated in the Great Purge of 1937. In 1929, the year of the Russian Revolution, the number of people in the Soviet Union was about 100 million. By 1937, the number had risen to about 150 million. The number of people who were executed during the Great Purge was about 100,000.
