The Middle-Class City John Henry Hepp, IV,2018-06-29 The classic historical interpretation of the late nineteenth and early twentieth centuries in America sees this period as a political search for order by the middle class culminating in Progressive Era reforms In The Middle Class City John Hepp examines transformations in everyday middle class life in Philadelphia between 1876 and 1926 to discover the cultural roots of this search for order By looking at complex relationships among members of that city s middle class and three largely bourgeois commercial institutions newspapers department stores and railroads Hepp finds that the men and women of the middle class consistently reordered their world along rational lines According to Hepp this period was rife with evidence of creative reorganization that served to mold

middle class life The department store was more than just an expanded dry goods emporium it was a middle class haven of order in the heart of a frenetic city an entirely new way of organizing merchandise for sale Redesigned newspapers brought well ordered news and entertainment to middle class homes and also carried retail advertisements to entice consumers downtown via train and streetcar The complex interiors of urban railroad stations reflected a rationalization of space and rail schedules embodied the modernized specialization of standard time In his fascinating investigation of similar patterns of behavior among commercial institutions Hepp exposes an important intersection between the histories of the city and the middle class In his careful reconstruction of this now vanished culture Hepp examines a wide variety of sources including diaries and memoirs left by middle class women and men of the region Following Philadelphians as they rode trains and trolleys read newspapers and shopped at department stores he uses their accounts as individualized guidebooks to middle class life in the metropolis And through a creative use of photographs floor plans maps and material culture *The Middle Class City* helps to reconstruct the physical settings of these enterprises and recreate everyday middle class life shedding new light on an underanalyzed historical group and the cultural history of twentieth century America *Visual Consumption* Jonathan E. Schroeder, 2005 *Visual Consumption* draws from art history photography and visual studies to develop an interdisciplinary image based approach to understanding consumer behaviour *The Saturday Review of Politics, Literature, Science, Art, and Finance* ,1862 *The Booklist* ,1909 *Walford's Guide to Reference Material: Social and historical sciences, philosophy and religion* Albert John Walford, Marilyn Mullay, Priscilla Schlicke, Library Association, 1999 A revised and updated guide to reference material It contains selective and evaluative entries to guide the enquirer to the best source of reference in each subject area be it journal article CD ROM on line database bibliography encyclopaedia monograph or directory It features full critical annotations and reviewers comments and comprehensive author title and subject indexes The contents include philosophy and psychology religion social sciences sociology statistics politics economics labour and employment land and property business organizations finance and banking and economic surveys economic policies and controls trade and commerce business and management and law public administration social services and welfare education customs and traditions geography biography and history **Reader's Guide to Periodical Literature Supplement** ,1916 *Saturday Review of Politics, Literature, Science and Art* ,1862 *Checklist of Books and Pamphlets in the Social Sciences* New York State Library, 1956 **Books in Series** ,1985 Vols for 1980 issued in three parts Series Authors and Titles
