

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

**Breaking Point** Rebecca Schwartz Greene,2023-01-03 WINNER SOCIETY FOR MILITARY HISTORY DISTINGUISHED BOOK AWARDS FIRST BOOK This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II Breaking Point is the first in depth history of American psychiatry in World War II Drawn from unpublished primary documents oral histories and the author s personal interviews and correspondence over years with key psychiatric and military policymakers it begins with Franklin Roosevelt s endorsement of a universal Selective Service psychiatric examination followed by Army and Navy pre and post induction examinations Ultimately 2 5 million men and women were rejected or discharged from military service on neuropsychiatric grounds Never before or since has the United States engaged in such a program In designing Selective Service Medical Circular No 1 psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in military service or even in civilian life thereafter While many American and European psychiatrists questioned this belief and huge numbers of

American psychiatric casualties soon raised questions about screening's validity psychiatric and military leaders persisted in 1942 and 1943 in endorsing ever tougher screening and little else Soon families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs and Blacks and Native Americans among others complained of bias A frustrated General George S Patton famously slapped two malingering neuropsychiatric patients in Sicily a sentiment shared by Marshall and Eisenhower though they favored a tamer style Yet psychiatric rejections evacuations and discharges mounted While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943 this was the exception But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself not predisposition precipitated breakdown leading military psychiatrists switched their emphasis from screening to prevention and treatment But this switch was too little too late and slowed by a year long series of Inspector General investigations even while numbers of psychiatric casualties soared Ironically despite and even partly because of psychiatrists wartime performance plus the emotional toll of war postwar America soon witnessed a dramatic growth in numbers popularity and influence of the profession culminating in the National Mental Health Act 1946 But veterans with PTSD not recognized until 1980 were largely neglected     *Farmer's Advocate and Home Journal* ,1921     **Real Soldiering** Brian McAllister

Linn,2023-06-23 What happens to the US Army after the battles are over the citizen soldiers depart and all that remains is the Regular Army In this pathbreaking work Brian Linn argues that in each decade following every major conflict since the War of 1812 the postwar army has undergone a long painful and remarkably consistent recovery process as it struggled to build a new model force to replace the Old Army that entered the conflict Departing from the Washington centric institutional histories of the past Linn sets his focus on soldiering in the field distilling the lived experiences of officers and troopers who were responsible for cleaning up the messes left in the wake of war Real Soldiering provides the first comprehensive study of the US Army's transition from war to peace It is both a wide ranging history of the army's postwar experience and a work detailing the commonalities of American soldiering over almost two centuries Linn challenges three common historical interpretations confusing Washington policy with implementation in the field conflating postwar armies with prewar armies and describing certain postwar eras as distinct and transformational Rather Linn examines the postwar force as a distinct entity worthy of study as a unique and important part of US Army history He identifies the common dilemmas faced by the service in the aftermath of every war These problems included such military priorities as defense legislation preparing for the next war and adapting to new missions But they also incorporated often overlooked but for those who lived through them more important consistencies such as officer acquisition and career management personnel turbulence insufficient personnel and equipment and many others Real Soldiering represents over four decades of research into the US Army and is deeply informed by Linn's experiences teaching and working with soldiers It breaks new ground in lifting out the similarities of each postwar army while still appreciating their individual complexities It identifies the leaders

and the methods the service employed to escape the inevitable postwar drawdowns Insightful and entertaining provocative and empathetic and a work of history with immediate relevance Real Soldiering will resonate with military historians defense analysts and those who have proudly worn the US Army uniform     *Resources in Education* ,1988     *Lok Sabha Debates India*.
