

## SLP Praxis Practice (Form 1)

Which of the following should be the primary focus of early language intervention for at-risk infants?

- A. Establishing object permanence through play activities
- B. Training primary caregivers to facilitate language learning
- C. Creating readiness activities in the context of play
- D. Enhancing social communication through play activities - Training primary caregivers to facilitate language learning

The figure above shows the oral, pharyngeal, and esophageal structures involved in swallowing. Which of the following best describes the transit of the bolus at the moment depicted in the figure? - B. The bolus is being propelled from the oral cavity by the tongue and has entered the pharynx.

Primary motor innervation to the larynx and velum is provided by which cranial nerve? - IX- Vagus Nerve

Fela is a third-grade student in a public school. She is a speaker of African American Vernacular English (AAVE) who has difficulty with the Standard American English (SAE) dialect used in her classroom. Her teacher believes that Fela's language skills are affecting her academic performance and has referred her to the school's speech-language pathologist. Which of the following is an appropriate rationale for providing language intervention for Fela?

- A. It will likely foster better communication with Fela's linguistically and culturally diverse peers.
- B. It will likely improve Fela's code-switching ability with her teacher and other adult speakers of SAE.
- C. It may expand Fela's later academic and vocational opportunities.
- D. It will likely lead Fela to adopt SAE as her primary dialect. - Options (A), (B), and (C) are correct. The intervention will foster better communication because Fela and her peers will have a common dialect. Also, the intervention will provide Fela with the ability to switch easily between dialects using SAE structures. Furthermore, being able to switch codes will enable Fela to participate in more educational and vocational opportunities.

Federal laws regarding freedom of access to information stipulate that client records kept or written by health care professionals can be

- A. reviewed only by other health-care professionals
- B. reviewed only by the clients themselves unless the client provides written permission to share with others
- C. reviewed by anyone who submits a formal written request
- D. released only by subpoena - B. reviewed only by the clients themselves unless the client provides written permission to share with others

**Medical Writing: Modality in Focus** Minna Vihla,2023-11-27 This book examines the role of modal expressions in various medical genres as well as pointing out other markers of speaker attitude Based on new computer readable data and combining quantitative and qualitative methods the book argues that the use of modal expressions reflects the institutional context of medical discourse Modal expressions are analysed with reference to hedging reliability and argumentation and it is shown that their use in different genres reflects a model of medicine leading from bio medical hypotheses through assessment to clinical applications The book also analyses new genres

of medical writing that have developed as a response to the increasing amount of medical information. Advertisements are analysed as an example of medicalization showing how evaluation in the texts is based on medical values.

**Essentials of Health Justice: Law, Policy, and Structural Change** Elizabeth Tobin-Tyler, Joel B. Teitelbaum, 2022-06-17 Building and expanding upon the prior edition of *Essentials of Health Justice* the new second edition of this unparalleled text explores the historical structural and legal underpinnings of racial ethnic gender based and ableist inequities in health and provides a framework for students to consider how and why health inequity is tied to the ways that laws are structured and enforced. Additionally it offers analysis of potential solutions and posits how law may be used as a tool to remedy health injustice. Written for a wide interdisciplinary audience of students and scholars in public health medicine and law as well as other health professions this accessible text discusses both the systems and policies that influence health and explores opportunities to advocate for legal and policy change by public health practitioners and policymakers physicians health care professionals lawyers and lay people.

Power, Privilege, and Public Health in the United States Lorraine T. Dean, 2025-03-31 *Power Privilege and Public Health in the United States* discusses the ways in which power and privilege along intersectional axes of race gender sexual orientation ability and other characteristics show up in public health and medicine practice teaching and research. It provides foundational knowledge on theories in power and privilege as well as historical examples of the ways in which the health and medical fields have been complicit in creating inequities and maintaining oppressive structures that can be used to understand health distribution differences and disparities. In order to enact real change the contributors to this textbook enrich their chapters practical guidance for developing anti oppression competencies as well as example experiential activities to examine how our own power and privilege influence the design and interpretation of health studies and public health practice. In addressing directly the actors and institutions that have led to unequitable health outcomes *Power Privilege and Public Health in the United States* does more than simply highlight the problems that plague American healthcare it actively engages students and readers from across a number of academic backgrounds from public health and

epidemiology to psychology and social work with the tools to enact change straight from leading experts in academia and public health practice     **Handbook of Research on Advising and Developing the Pre-Health Professional Student**
