Religion in the Public Schools Richard C. McMillan, 1984 Religion, Education and the State Mark Strasser, 2016-04-08 In the context of education Church and State issues are of growing importance and appear to be increasingly divisive This volume critically examines the developing jurisprudence relating to religion in the schools beginning with Everson v Board of Education where the US Supreme Court discussed the wall of separation between Church and State The study traces both how the Court s views have evolved during this period and how through recharacterizations of past opinions and the facts underlying them the Court has appeared to interpret Establishment Clause guarantees in light of the past jurisprudence when in reality that jurisprudence has been turned on its head The Court not only offers an unstable jurisprudence that is more likely to promote than avoid the problems that the Establishment Clause was designed to prevent but approaches Establishment Clause issues in a way that decreases the likelihood that an acceptable compromise on these important issues can be reached The study focuses on the situation in the US but the important issue of religion education and the state has great relevance in many jurisdictions Judicial Decision Making Lawrence S.

Wrightsmann, 2012-12-06 In the mid 1970s as a social psychologist dedicated to the application of knowledge I welcomed our field s emerging interest in the legal system I have always been fascinated by jury trials something about the idea that two conceptions of the truth were in irrevocable conflict and jurors could choose only one of them More important the criminal justice system is a major social force that has been ignored by social psychologists for most of the twentieth century As I systematically began to explore the applications of social psychological concepts to the law 20 years ago I experienced the delight of discovery similar to that of a child under a Christmas tree It has been satisfying to be among the cohort of researchers who have studied the legal system especially trial juries from a psychological perspective I believe we have learned much that would be useful if the system were to be revised Half the system were to be revised there s the rub As I have stated my original motivation was the application of knowledge Like other social scientists I believed perhaps

arrogantly that the results of our research efforts could be used to make trial juries operate with more efficiency accuracy and satisfaction Over the last two decades much knowledge has accumulated How can we put this knowledge to work Judges are the gatekeepers of the legal system **United States Code Annotated** United States,2004 ABA Journal ,1995-01 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association
