Test Ford Focus 2.0L BMW X4 M40i Porsche Macan Honda NSX McLaren 570S 400km/h Hypercar **2015 Passenger Car and 2014 Concept Car Yearbook** Automotive Engineering International, 2014-11-21 Every year global automakers introduce new or significantly re-engineered passenger vehicles with increasingly advanced technology intended to exceed consumer expectations and satisfy increasingly stringent government regulations. Some of these technologies are firsts of their kind and start trends that other automakers soon follow with the innovations becoming adopted across the board. The supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research, develop, and introduce the latest engineering innovations that help bring competitive advantage for their automaker partners. Each year the editors of SAE's Automotive Engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles, and these articles have been collected into this volume. This 2015 Passenger Car and 2014 Concept Car Yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry. In this book, we explore from an OEM and supplier perspective the newest and most technically interesting production vehicles released for the 2015 model year. In addition, we also have included a technology-focused recap of the concept cars revealed during 2014. Readers will have in one publication a complete overview of the key advances that took place over the course of the year from around the world. Each new model is profiled in its own chapter with one or more articles by the award-winning editors and contributors of Automotive Engineering in this exclusive compilation of print and online content. The novel engineering aspects of each new vehicle are explored with exclusive interviews of key engineers and product developers providing insights you can only get from Automotive Engineering. This book is published for the most technically minded enthusiasts who are interested in new car technologies as well as practicing automotive engineers who are interested in new engineering trends. Engineering trends explored focus on what engineers are doing to meet the sometimes conflicting consumer and governmental demands for improved vehicle fuel efficiency, performance, safety, and comfort. In short, this book provides a single source for information on the key engineering trends of the year from both automaker and supplier perspectives. Allows the reader to skip to chapters that cover specific car models that interest them or read about all models from beginning to end. Makes for dynamic book reading with its large number of big full-color images and easy reading magazine format.

Transforming Information Literacy Instruction Amy R. Hofer, Silvia Lin Hanick, Lori Townsend, 2018-11-16 Provides information literacy practitioners with a thorough exploration of how threshold concepts can be applied to information literacy, identifying important elements and connections between each concept and relating theory to practical methods that can transform how librarians teach. A model that emerged from the Enhancing Teaching Learning Environments project in Great Britain: threshold concepts are those transformative core ideas and processes in a given discipline that define the ways of thinking and practicing shared by experts. Once a learner grasps a threshold concept, new

pathways to understanding and learning are opened up The authors of this book provide readers with both a substantial introduction to and a working knowledge of this emerging theory and then describe how it can be adapted for local information literacy instruction contexts Five threshold concepts are presented and covered in depth within the context of how they relate and connect to each other The chapters offer an in depth explanation of the threshold concepts model and identify how it relates to various disciplines and our own discipline information science and to the understandings we want our students to acquire This text will benefit readers in these primary audiences academic librarians involved with information literacy efforts at their institutions faculty teaching in higher education upper level college administrators involved in academic accreditation and high school librarians working with college bound students [Lemon-Aid New and Used Cars and Trucks 1990-2016](#) Phil Edmonston,2015-11-21 This book steers buyers through the the confusion and anxiety of new and used vehicle purchases unlike any other car and truck book on the market Dr Phil Canada s best known automotive expert for more than forty five years pulls no punches **Electric Cars** Jennifer MacKay,2011-09-12 Author Jennifer MacKay focuses on the invention of electric cars exploring how it was developed how it works its impact on society and possible future uses **Annual Energy Outlook 2009 With Projections to 2030** ,2009-05-08 AEO 2009 The Annual Energy Outlook 2009 presents projections and analysis of US energy supply demand and prices through 2030 The projections are based on results from the Energy Information Administration s National Energy Modeling System The AEO2009 includes the reference case additional cases examining energy markets and complete documentation [U.S. Energy Security](#) United States.
