### \*4 Continuously variable transmission models

Driving in mountainous areas at very low vehicle speeds results in higher transmission temperatures. This requires transmission fluid changes more frequently than recommended by the Maintenance Minder. If you regularly drive your vehicle under these conditions, have the transmission fluid changed every 25,000 miles (40,000 km).

<sup>\*\*5</sup> If a Maintenance Minder message does not appear more than 36 months after the display for item 7 is reset, change the brake fluid every 3 years.

<sup>\*1</sup> If a Maintenance Minder message does not appear more than 12 months after the display is reset, change the engine oil every year.

<sup>#</sup> See information on maintenance and emissions warranty in the first column on page 713.

<sup>\*\*2</sup> If you drive in dusty conditions, replace the air cleaner element every 15,000 miles (24,000 km).

<sup>\*\*3</sup> If you drive primarily in urban areas that have high concentrations of soot in the air from industry and from diesel-powered vehicles, replace the dust and pollen filter every 15,000 miles (24,000 km).
